

IRON STRIKE IS NEARER SETTLEMENT

CITY GIVES FAREWELL TO SECOND CONTINGENT

Party Leaving Oakland Is Far Below the Quota Demanded; Special Takes Men to Camp

CEREMONY OF GOOD-BYE HELD AT CITY HALL

Basket Luncheons Given Boys at Station; Many Delicacies Provided by Wives, Mothers

With its ranks thinned by the 50 per cent deficit in numbers below the required number necessary to establish a full quota, the second contingent of local men, destined for Camp Lewis under the draft left Oakland sixteenth street this morning for their first taste of army life preliminary to being sent to the war zone. Everybody was up before dawn this morning, gathering up personal belongings, bidding farewell to friends and relatives and attending to the final odds and ends that always accompany a soldier's departure. Basket lunches were handed out to the men until food was served aboard train, and many a farewell dainty was slipped beneath the door of many a basket by a mother's wife or sweetheart. The special which carries the quota to the destination left promptly at 12:12. Hundreds of friends and relatives thronged the station platform to bid the boys good bye. Waving handkerchiefs, tear-stained faces and brave smiles were everywhere in evidence. There was little ceremony attendant upon the departure and considerable business-like attention to detail. As the other cities, where similar scenes are being hourly enacted, each departing train-load brings home the war lesson a little closer to the nation and each succeeding departure grows a little grimmer.

ACCORDION AND DRUM SOUND FAREWELL

To the stirring strains of an accordion and a kettle drum, played by two friends of the departing Liberty Boys, the special train conveying the second Oakland contingent pulled out of the Sixteenth Street depot. Each soldier was exceedingly pleased with his "Comfort Kit," presented him on departure by "White-Trooped Red Cross nurses. They went through them with the eagerness of a boxer learning boxing, and the "kit" was found to contain a tooth brush, a tin of soap, a tin of tooth paste, a package of needles and pins, handkerchiefs, napkins, scissors, playing cards, a thread, a thimble, buttons, writing paper and envelopes.

CAPTAINS APPOINTED BY EACH DISTRICT

Each of the districts appointed a "captain" last night to take charge of the quotas until their arrival at Camp Lewis. Board No. 1 appointed Fletcher Benz, a graduate of the University of California, captain of the squad from their district. Board No. 2 appointed Benjamin F. Maesten squad captain. Maesten has had considerable army experience and is expected to make good on his arrival at the mobilization camp. In district No. 3 R. A. Joyner was elected squad captain, his quota being the largest sent, consisting of 79 men. Board No. 4 appointed S. Terry Chapman squad captain, with George J. Prefontaine first lieutenant. The official farewell was given last night at the city hall, when Mayor Davis spoke to a number of the men who had assembled with their relatives and friends in the council chamber. Only about fifty of the drafted men were present, most of them preferring to spend their last night at home. Music was furnished by the firemen's band, but the enthusiasm which characterized the departure of the first contingent was entirely lacking.

BIG RIOT IN PRISON

KEOKUK, Ia., Sept. 19.—A riot occurred in the Iowa State prison at Fort Madison this morning, and one prisoner was shot and killed by a deputy warden, according to reports reaching Keokuk this afternoon. Several prisoners are said to have assaulted the deputy, making it necessary for him to use his gun.

L.A. MAN WOUNDED

OTTAWA, Ont., Sept. 19.—W. P. Higgins, an Los Angeles, Cal., was killed as wounded in today's casualty list.

Chicago's Mayor Gives Assurance of His Loyalty

CHICAGO, Sept. 19.—Mayor William Hale Thompson, whose harboring of the people's council delegates aroused comment all over the country, apparently climbed into the patriotic band wagon today with a proclamation occasioned by the departure of selected men from Chicago to the Rockford cantonment. In the course of the preamble, he says: "Whereas, it is the duty of all patriotic citizens to stand by our country in times of controversy with any other countries and to show in an unmistakable way that the American people stand behind the army and the navy which represent the majesty of our government."

Drafted Men Being Moved Into Camps

WASHINGTON, Sept. 19.—More American youths who will down kaiserism began moving to cantonments today. Within the next five or six days the first big draft will be encamped. In only 35 per cent of the draft, in others to as high as 45 per cent. Between 275,000 and 450,000 men in all will go.

Hard, intensive training will begin at once. Once absorbed into the small skeleton organizations already at cantonments, the men will start drilling. They will be taught to march and maneuver and then asked to develop their own ideas in trench fighting, bombing, bayonet and knife fighting and all the other things that must be crowded into a few months. That these men will be training until next spring is regarded certain, though army officials refuse to set an exact date on the time. For the moment drafted men will be minus part of the paraphernalia which goes to make a soldier. Civilian clothing must be used in some cases, but this shortage and the lack of rifles is being rapidly overcome. While the shortage and discomforts may provoke criticism from some quarters, the War Department holds that its quartermaster, service and the peace time industries of the nation have responded nobly to the needs of converting two million men into fighting forces almost overnight. Space of wardrobe and the wool and so on were needed and the peace time output was far below the requirements. Manufacturers extended their plants and now this tremendous mass of supplies is nearly ready.

Additional men have to be raised before the second draft is picked seemed likely to authorities today, due to the necessity of bringing existing units up to war strength. The biggest recreational program ever staged in America, a continuous performance has for the duration of the war with an annual supporting fund of at least \$14,000,000, started today at the sixteen national army cantonments. The country's best theatrical talent has been mobilized, under the direction of Marc Klaw to give free entertainments for the soldiers.

OUT 15 MINUTES

SAN FRANCISCO, Sept. 19.—The shortest strike in San Francisco's history was called, arbitrated and partially won today—all in the short space of fifteen minutes. Several hundred jobs employed as candymakers in the factory of Charles Haas & Sons quit work. The plant was completely tied up. The girls marched before the manager and asked for more money. They got wage increases of from \$1 to \$2 a week.

DISCUSS EMBARGO

WASHINGTON, Sept. 19.—A complete agreement by night on the administration trading-with-the-enemy bill was promised when conferees on the measure resumed work today. The insurance and imports embargo provisions were among the more important questions awaiting final determination.

IS KILLED IN BLAST

AUBURN, Cal., Sept. 19.—One man was killed and one injured early today when a powder store house of the Clipper Gap Powder Works, seven miles from here, blew up. The cause of the explosion had not been ascertained.

SLAVS DRIVE ENEMY BACK UPON RIGA

Germany's Loss Killed Totals 1200 a Day, According to Declaration of Berlin Leader

Petrograd Observers Believe Teutons Have Abandoned Their Designs Upon Odessa

GENEVA, Sept. 19.—Germany is losing 1200 men daily in killed, according to a despatch from Germany today quoting Dr. Matthias Erzberger, leader of the Clerical party. Dr. Erzberger, who is leader of the majority peace bloc in the Reichstag, is using the heavy German losses as one of his most potent peace arguments. PETROGRAD, Sept. 19.—As the Germans are thrown back in the Riga region they are burning villages and leaving the country in waste, it was declared today by Commissioner Muniz, who is representing the provisional government at headquarters. The Russian forces are consolidating their new positions as they advance towards Riga and have their counter offensive movement well in hand. Rumanian forces yesterday attacked the Austro-German positions south of Riga, in the Odra region, and occupied heights there, the war department announced today. That Germany has abandoned at least for the time being her designs upon Odessa was the opinion expressed by competent military observers today. Aside from artillery dueling, local infantry operations on the Rumanian front for two weeks.

EMERSON, Sept. 19.—French aerial attacks Sunday forced several German cities in Western Europe, including Prussia and Upper Alsace, according to an official statement issued today by the German war office. The announcement reads: "Our enemies on Sunday undertook a severe bombing raid against south German territory. Stuttgart, Tübingen, Freudenstadt, Oberndorf, Singen, Saarbrücken and Colmar were attacked. Near Stuttgart one soldier was slightly wounded. At Freudenstadt and Colmar damage was done to buildings. All the attacks caused neither losses in killed nor wounded, nor material damage. Three enemy air planes were shot down on German soil."

Scans Great Highway as Army Route

Completing the last lap of a 6000-mile trans-continental trip over the nation's greatest coast-to-coast roadway for the purpose of determining its availability for rapid transportation of troops for the information of the United States Government, H. C. Osterman, head of the Lincoln Highway Commission, reached Oakland at 11 o'clock this morning, dust-stained and travel weary but enthusiastic over conditions. Osterman has come to the coast for a conference with the engineers who are to do the work. The opening of the highway when completed will make a perfect coast to coast roadway at all points save the Stillwater cut-off at \$25,000 job, which the National Highway Commission is looking to California to complete. In regard to the work, Osterman said: "There are 4,000,000 registered cars in the United States. A surprising majority of them come to California during the year. They do so for many reasons, through lack of emphasis road markings, some 85 per cent going through Los Angeles. This condition is to be rectified. The Federal interest in this trip centers in the fact that the Lincoln Highway offers the most rapid, easiest and most satisfactory method of transportation between the two coasts. When our work is done we will have the greatest highway in the world, and Oakland will be the western portal of the nation's biggest road project. That ought to mean something to Oaklanders."

Osterman left Detroit April 23, proceeding to New York via Chicago. From the Eastern seaboard he traveled direct to the coast, making hundreds of observations of road conditions, altitudes and grades, en route. WASHINGTON, Sept. 19.—The treasury department today advanced new loans of \$50,000,000 to Great Britain and \$20,000,000 to France, bringing the total loans to the Allies up to \$2,391,400,000.

NEW LOAN MADE

WASHINGTON, Sept. 19.—The treasury department today advanced new loans of \$50,000,000 to Great Britain and \$20,000,000 to France, bringing the total loans to the Allies up to \$2,391,400,000.

KERENSKY IN PERIL FROM BOLSHEVIKI

Radical Wing of Radical Party Shows Signs of Increasing Potency in Russian Affairs

Preparation for Constituent Assembly Begins With Army Reorganization Under Way

By William C. Shepherd, United Press Staff Correspondent. (Copyright, 1917, by the United Press) STOCKHOLM, Sept. 19.—At the moment when Korniloff's revolt was at its height, Russia's peace at any price fanatics were in the saddle in Petrograd, Premier Kerensky was virtually a prisoner in the winter palace and armed mobs, delirious with power, roamed the streets. This story of wild excesses of growing power and of Bolsheviki adherents and of Russia's perilous situation of the week, now be told for the first time from the neutral point of view. Bolsheviki censor was in control at Petrograd. When Korniloff's rebellion menaced Petrograd, Premier Kerensky, searching for defenders, released and armed the Kronstadt sailors and workmen who last July terrorized the city. He hoped to send these men against the rebels. They instantly assumed control of the city's streets. Great motor trucks loaded with the terrorists of July roamed about the city unhampered. Kerensky, in the winter palace, was no all powerful and his power on the streets nearby and all through the city they rejoiced in the and danced deliriously. All semblance of order in the city disappeared. That was on Sunday. On the same night the Bolsheviki government assumed control of the Bolsheviki and soldiers' council at Petrograd.

IMPOSITION OF PEACE RESOLUTION THWARTED

The Bolsheviks are the unyielding extremists of Russia. They believe in the universal brotherhood of man. They disapprove of war because it is not a fraternity of mankind. They insist upon immediate institution of a socialist ideal. The party comprises the radicals of the radicals of Russia. PETROGRAD, Sept. 19.—The cabinet crisis settled, the Korniloff revolt quelled and plans for reorganization of the army started under way, the provisional government today turned its energies toward preparing for the constituent assembly which will fix Russia's form of government. Active steps were begun throughout the nation to establish voting boards.

Coal Famine Menaces Bay City Homes

Coal scarcity in Alameda county, which is said to have a supply sufficient for only six weeks, threatens to such an extent that the State Council of Defense has been asked to induce the government to allow empty railroad cars on their way here to load with coal for this market. This request to the defense council was by one of the members of the Commerce board of directors following a report at a meeting last night that the coal situation in Alameda county is very unsatisfactory and that if a cold spell should ensue in the near future there would not be enough coal available to keep the people warm, not to speak of the lack of fuel for manufacturing plants and public institutions. Coal dealers in Berkeley spoke at the meeting of the seriousness of the situation, due to the inability to bring coal here because of the lack of cars.

A statement from O. E. Asman, president of the Coal Association of Alameda County, was to the effect that orders have been issued by the United States government for the immediate westward movement of 1000 empty boxcars from eastern points to such an extent that the State Council of Defense has been asked to induce the government to allow empty railroad cars on their way here to load with coal for this market. This request to the defense council was by one of the members of the Commerce board of directors following a report at a meeting last night that the coal situation in Alameda county is very unsatisfactory and that if a cold spell should ensue in the near future there would not be enough coal available to keep the people warm, not to speak of the lack of fuel for manufacturing plants and public institutions. Coal dealers in Berkeley spoke at the meeting of the seriousness of the situation, due to the inability to bring coal here because of the lack of cars.

Consider Wage Scale

CONFEREES AT WORK ON SOLUTION

Committees Representing the Strikers and Employers Still Seeking Basis of Settlement

Shipyards Make No Attempt to Operate and Are Depending on Mediation of U. S.

Declarations that the efforts toward a settlement of the strike of metal workers of the bay district by a conference of all interests involved was without result this morning was given out officially at the Central Labor Council headquarters here today. A special conference is being held this afternoon, it was announced, at which further negotiations will be conducted. The executive committees of all unions on the eastern side of the bay affected by the strike met this morning and a decision was made to make the Central Labor Council the official clearing house for all negotiations and arrangements with both federal authorities and corporation heads. The final action of the special conference will be made known late tonight. With the conviction growing steadily in industrial circles that no settlement of the metal workers' strike, which has tied up shipbuilding operations and Federal war orders in the bay district, will be final until some adjustment of the striking car men's grievances is made, the conference is affected in San Francisco, joint conferences of corporation representatives, strikers' committees and government officials are being held today in order to formulate some common basis of compromise by long-distance interests may meet. Commander J. L. Ackerson, U. S. N., and W. T. Boyce, of the Immigration Department, are acting as representatives of the government. The chief of police, who is expected to be at the conferences, which will probably last all day, just what progress has been made so far is being carefully guarded. The authorities at Washington are in constant touch with the conference by long-distance telephone, and with Chairman Hurley of the Federal Shipping Board, who is expected to come to the coast to take up mediation officially.

REPORT OF BOYCE CALLED OPTIMISTIC

The conference called their deliberations in the utmost secrecy today. All that leaked out of the carefully guarded conference to the public were statements that the optimistic report sent to Washington by W. T. Boyce, Federal conciliator, was over-optimistic. Boyce reported to Washington that a settlement of the San Francisco strike should come within forty-eight hours. "Such a report is optimistic to a degree," said E. J. Fowler, one of the strikers' representatives, "and I agree that Mr. Boyce is so hopeful. Of course, we, too, are hopeful." The conference to settle the strike is being held in a room in the Palace Hotel taken under an assumed name by one of the members of the committee. Boyce is expected to be reached by a private elevator and a private stairway. With Boyce predicting a rapid settlement of the strike, R. W. Burton, president of the striking Iron Trades Union, sounded a note of warning today that mere adjustment of the shipyard controversies would not settle the strike. The government's interest, he pointed out, is based on the fact that the strike has affected construction of government ships. Adjustment of differences affecting only the shipyards men will not end the strike, he said, because it would not take into consideration the interests of thousands of other members of the "Iron Trades" Council who are on strike, but are not engaged in shipbuilding work. These men number fully half the men on strike, he said.

U. S. NEGOTIATION IS DELICATE QUESTION

It is known that the main subject for discussion at the conferences is the Mare Island Navy Yard wage scale. It is being strongly intimated that this scale may form a basis for readjustment in the bay district. Only a few days ago the government allowed a ten per cent increase in the yard scale, the test of future years. Federal officials are not quite certain as to local conditions would mean an approximate average increase of \$1 a day advance over the wages received by employees at the time of the walk-out. While admitting that the tying up of government contracts while the country was in a condition of war developed a new angle in national affairs which demanded the establishment of a precedent on a basis which would stand the test of future years, Federal officials are not quite certain as to local conditions would mean an approximate average increase of \$1 a day advance over the wages received by employees at the time of the walk-out.

ACTS OF VIOLENCE CHARGED BY MANAGER

After a conference with Chief of Police White this morning, General Manager von Puhl said: "The public is not misinformed, but is uninformed of the actual violence which is being committed from day to day upon the persons of our employees and our rolling stock. Instead of there being but a half-dozen isolated instances yesterday, there were over fifty attacks made, twenty-three alone being upon the cars of the Geneva division. These acts range from throwing sand in the eyes of a motorman to the smashing of all the windows in a car and the crew being sent to the hospital. At Cortland and Folsom streets yesterday a mob of twenty or thirty attacked a car in charge of Conductor Isaacs, Motorman Jacob Smith and Guard Harry Gordon. The windows were broken and Gordon's scalp was badly lacerated. In this instance when a special police officer, George P. Bailey, arrived on the scene the mob ran in all directions. He finally succeeded in capturing Joseph Pinauer, 1878 Mission street, a striking conductor formerly on the Powell street line.

CHIEF JUSTICE J. HARRY COVINGTON, who may come to coast as President's personal representative to seek end of ship strike.

Rolph and U.R.R. Fight Over Service

SAN FRANCISCO, Sept. 19.—With the United Railroad management announcing that it will give service only until 6 o'clock tonight, but that it will develop another service of the service at night gradually will approach normal, the strike situation today developed another exchange of remarks between Mayor Rolph and General Manager von Puhl. Mayor Rolph accused the traction company of attempting to mislead the public as to the city administration's attitude. Von Puhl asserted that the public is being kept in ignorance of the real condition of affairs so far as violence is concerned. Mayor Rolph said: "There are apparently deliberate attempts being made to create the impression that the administration or the chief of police has been asked to have the police not to run their cars at night. No such request has ever been made to the United Railroads by me as mayor, and I am assured by the chief of police that no such request has ever been made to the United Railroads by him. I do not know what may be the real reason of the United Railroads for refusing to run cars at night, but the United Railroads, and the chief of police has assured them of adequate police protection at any time when they resume the operation of their cars at night. We have taken this position from the beginning. We have stood ready at all times since the strike began at the strike to provide adequate protection for the cars operating either by day and by night. The other day 18,000 union men offered as volunteers to help the police depart out to crush the outbreak of violence that might occur. I know that these men are sincere and am sure that the police can count on their earnest co-operation, if any co-operation is necessary. The United Railroads announced the other day that they would commence the operation of its cars last Monday night. The police were fully prepared to meet any situation that might arise by reason of the resumption of car service at night. More than 100 automobiles were ready for the emergency. The police have been no violence. If there had been any violence it would have been quickly suppressed. The United Railroads, however, decided not to resume operation of the cars at night."

COMPANY ASSURED OF POLICE PROTECTION

After a conference with Chief of Police White this morning, General Manager von Puhl said: "The public is not misinformed, but is uninformed of the actual violence which is being committed from day to day upon the persons of our employees and our rolling stock. Instead of there being but a half-dozen isolated instances yesterday, there were over fifty attacks made, twenty-three alone being upon the cars of the Geneva division. These acts range from throwing sand in the eyes of a motorman to the smashing of all the windows in a car and the crew being sent to the hospital. At Cortland and Folsom streets yesterday a mob of twenty or thirty attacked a car in charge of Conductor Isaacs, Motorman Jacob Smith and Guard Harry Gordon. The windows were broken and Gordon's scalp was badly lacerated. In this instance when a special police officer, George P. Bailey, arrived on the scene the mob ran in all directions. He finally succeeded in capturing Joseph Pinauer, 1878 Mission street, a striking conductor formerly on the Powell street line.

WILL TEST

AUGUSTA, Ga., Sept. 19.—Watson, Georgia publisher, the constitutionality of the in the United States supreme court. This was made public her L. McGregor Watson's filed papers relative to the United States Commission Skinner Jr. The appeal growth of habeas corpus investigated by Watson several ago in behalf of two men the Richmond county jail of failure to resist for service. The habeas corpus returnable before Judge who held that the draft in

HURLEY HOPEFUL ADJUST INCREASE

Chairman of Shipping Predicts Early End by Acceptance of U.

PRESIDENT MAY SEND PERSONAL ENVOY

Labor Federation Suggests Entire Coast Be Closed As Unit in Wage Scale

WASHINGTON, Sept. 19.—Chief coast shipyard strike, shortly with wage increase employees, it was stated United States Shipping Board today. Chairman Hurley settlement as soon as the present dispute, the men's wage offer, if it is immediately received, to work on the basis of the Mare Island government yard, pending further action. Hurley was undecided regarding his proposed trip to San Francisco, personally with 25,000 strikers. He said Samuel Gompers, the Ship and the Shipyard men's commission, as well as reports from mediators on coast are desired by Hurley he decides whether the trip is necessary. Judge Harry Covington, Chief Justice of the Supreme Court, who recently returned from the coast, conferred with President today. It is understood Judge Covington outlined when he left, and if the chief of police has been asked to have the police not to run their cars at night. Conciliation will be taken by the shipping. "But this falls more drastic action taken," he said, "and it is that the employers are blame for the difficulties, question of their attempting the government to bear the increased wages. It has been stated that if the government officials expressed the Shipping Board will commission privately owned shipyard operate them as government.

URGENT WHOLE COAST AS UNIT ON WAGES

Urgent suggestion comes American Federation of Labor, which has considered a unit in determining scales for shipyard employees, subsequently the Shipping Board will commission privately owned shipyard operate them as government.

WILL TEST

AUGUSTA, Ga., Sept. 19.—Watson, Georgia publisher, the constitutionality of the in the United States supreme court. This was made public her L. The habeas corpus returnable before Judge who held that the draft in

287 MILLION MORE ASKED IN WAR FUND

WASHINGTON, Sept. 19.—Secretary of War Baker today submitted to the Senate appropriations for \$287,416,000 additional estimates for the army. He explained the imperative need of the money and asked it be included in the \$7,000,000,000 urgent deficiency bill.

The conferees on the \$11,538,000,000 bond bill reached a complete agreement after half an hour's session today. The report will be submitted to the Senate tomorrow and to the House Friday for final ratification.

The LaFollette amendment specifically limiting the interest on the war savings certificates to 4 per cent was stricken out by the conferees. A compromise was reached on the amount to be spent on marketing the bonds and certificates. One-fifth of one per cent will be spent in marketing the bonds and war savings certificates and one-tenth of one per cent will be spent in marketing the certificates of indebtedness.

Baker, in submitting the estimates, forecast a call for 500,000 more men for the national army soon. He said "submission of these estimates is necessary to provide increased facilities for manufacture and storage of ordnance; equipment for additional half million men; in anticipation of a call for that number and in securing a supply of small arms ammunition for machine guns, rifle and pistol practice for an army of 2,000,000."

TO PAY ADVERTISING. A compromise was reached on the amount allowed the treasury to pay advertising and other expenses in connection with the sale of the four billion dollar war bonds authorized. One-fifth of 1 per cent is to be allowed. The House bill called for one-seventh and the Senate amendment for one-fourth. On war savings certificates the Senate allowance of one-tenth of 1 per cent was allowed, instead of the House provision of one-twentieth.

Secretary Daniels is to submit additional estimates this afternoon. Of the \$11,538,000,000 is for ordnance service, covering chiefly stocks of ammunition, military stores, and for ordnance supplies exclusive of ammunition; \$33,750,000 for ammunition, \$76,676,000 for ammunition for target practice for an army of 2,000,000 men.

ARMY BIG ITEM. The manufacture of arms, \$32,290,000 is asked and for new equipment at the Rock Island arsenal, \$500,000.

Engineer operations in the field require \$38,000,000 additional and engineer equipment \$7,500,000.

Brigadier General Crozier and Brigadier General Black explained the urgency of the requests is due to conditions not apparent when regular estimates were made.

OFFICERS MOVED WASHINGTON, Sept. 19.—Regular and national guard general officers are to be sent to Europe on an observation tour of the battle fronts, returning to carry on their duties at the close of the tour. Formal announcement of this plan by the War Department is expected.

Under the voluntary censorship specific movements of general officers may not be published without authorization.

KILLED BY THUGS FARGO, N. D., Sept. 18.—George Sheffield, telegraph operator at the Great Northern station at Moorhead, Minn., was shot and killed early today by two robbers when he snapped an unloaded revolver at them instead of obeying their command to hold up his hands. The robbers escaped with \$45.

Strike Conferences Are Held Wage Increase Is Predicted

(Continued From Page 1)

and the companies involved, while the government's interest is only that of a shipowner whose construction is held up by disputes. None of the shipyards are making any attempt to resume operation until some settlement of the situation is effected and the strikers, for the most part, are keeping a pledge made to the authorities on both sides of the bay that they would abstain from violence and breaches of peace.

The strikers from Mare Island are still on duty at the Union Iron Works plants. They have pitched tents, established commissaries and are patrolling all approaches and entrances to the plants. No one is permitted to even approach the gates without the proper passes and credentials.

Extra details of police are on duty both in Oakland and San Francisco in anticipation of trouble, but so far there has been no call for their services. It is thought that the main body of the strikers will await government action before taking drastic measures on their own account.

A mass meeting has been arranged for next Thursday night at the Civic Auditorium in San Francisco under the direction of officers of the San Francisco Labor Council. Speakers will outline the present situation from both the corporation and labor union phases. Prominent businessmen, government officials and others have been invited to address the assembly.

A mass meeting has been arranged for next Thursday night at the Civic Auditorium in San Francisco under the direction of officers of the San Francisco Labor Council. Speakers will outline the present situation from both the corporation and labor union phases. Prominent businessmen, government officials and others have been invited to address the assembly.

The Western Sugar Refinery in San Francisco escaped a large financial loss as a result of the strike, when permission was granted to employees by labor union officials to remain at their posts until sugar valued at more than \$1,000,000 had been processed.

The refinery applied to firemen affiliated with the Iron Trades Council. The men will leave when the sugar work has been completed. Following is a comparison of the scheduled wages demands made by the strikers and the schedule of wages in operation at Mare Island navy yard which will probably be the basis for a final settlement of the metal workers' difficulties:

Demand by strikers: Machinists, \$8; molders, \$8; blacksmiths, \$8; patternmakers, \$7; engineers, \$6; sheet metal workers, \$5; coppermiths, \$6; shipyard laborers, \$3.50; electrical workers, \$6; asbestos workers, \$6; riggers, \$6; steam fitters, \$6; boiler makers, \$6; foundry employees, \$4; metal polishers, \$6; shipwrights, caulkers and joiners, \$6; structural iron workers, \$6; pile drivers, \$6; ship painters, \$5; stationary firemen, \$120 a month.

The Mare Island schedule is as follows: Patternmakers, \$5.60; blacksmiths, \$4.32; sheet metal workers, \$4.80; steam fitters and shipfitters, \$4.72; ship riggers, \$4.48; ship painters, \$4; foundry workers, \$4.40; shipyard laborers, \$3.52; engine tenders (firemen and engineers), \$4.48; condensers and pumpmen, \$4.40; boat builders, \$4.48. Under the new wage scale of the government these figures will be increased 10 per cent October 1. Announcement of the raise was made Monday.

Troops on Guard at Northern Mills' Yards

PORTLAND, Ore., Sept. 19.—Sawmills and shipyards at Astoria today are under guard of federal troops to protect men who want to work from intimidation of pickets. Federal agents declare many who want to work at the plants are idle because of the tactics of the pickets from the Ship Carpenters' Union. State labor officials say there is no need for troops at Astoria.

A considerable number of men returned to work today at the Hammond Lumber Company's plant, where yesterday more than 100 workers refused to work because of the pickets.

There is little change in the wooden shipyards strike, where only a few machinists and laborers are working, except at two plants which have not been affected by the strike. Leaders of the steel shipbuilding trades announced today that no strike would be declared by them pending a settlement of labor problems by the government.

O'CONNELL CASE IS NEAR FINISH

SAN FRANCISCO, Sept. 19.—The government expects to complete its case this afternoon in the trial before Judge Van Fleet of Attorney Daniel O'Connell and other defendants charged with obstructing the selective draft law, by the testimony of A. D. Bauer, formerly editor of the American Independent.

Under a heavy guard Franz Bopp, former consul convicted of conspiracy to violate American neutrality, was brought into court today to testify in defense of O'Connell and five others charged with obstructing the draft law.

The American Independent was a strong pro-German and anti-English publication which closed down with the entrance of this country into the war. O'Connell was a stockholder and it is expected that the government will show by Bauer's testimony O'Connell's real attitude towards the draft law.

Attorney O'Connell has made no pretense of being other than an obstructionist so far as the drafting of men for service in France is concerned, and has contended throughout the entire trial that the law was unconstitutional and the completion of the government case this afternoon will ask the jury for a verdict of not guilty on the theory that United States Attorney Brown has produced no evidence that he or the other defendants obstructed the draft law as alleged in the indictment.

In the event that he is obliged to present defense's side of the case, he stated this morning he would require a full day. This will give the case to the jury for verdict tomorrow afternoon or Friday morning.

U-BOAT IS SUNK IN SEA FIGHT

LONDON, Sept. 19.—A German submarine was sunk and another damaged in a fight with an American freight steamer, said a dispatch from Bergen, Norway, today. The word was received at Bergen from the crew of the Norwegian steamer which witnessed the battle. The first German submarine was engaged in sinking a sailing ship when the American freighter appeared. The U-boat was attacked and the periscope was smashed. A second submarine suddenly appeared and made two attempts to torpedo the American vessel but failed. The U-boat was soon sent down and all her crew but six perished. It is understood the battle occurred near the Shetland Islands.

LONDON, Sept. 19.—An American armed steamer probably sank a German submarine in a spirited fight southwest of the Shetlands, according to a Central News dispatch from Bergen today, quoting the newspaper Aftenbladet.

LONDON, Sept. 19.—The American steamer Platania was torpedoed and sunk with the loss of the captain and eight members of the crew, the admiral announced today. Forty-five survivors from the Platania were rescued.

The Platania was owned by the Standard Oil Co. of New Jersey. She was a steel screw steamer of 3,445 tons and registered from the port of New York.

CHRISTIANIA, Sept. 19.—German submarines have sunk the Norwegian steamships Fado of 2372 tons, and the Thomas Krag, 3569 tons, it was announced today at the Norwegian foreign office. Two men from each vessel perished.

WOULD OUST LA FOLLETTE FROM SENATE

ATLANTIC CITY, Sept. 19.—A resolution proposing that the United States Chamber of Commerce petition Congress to expel Senator La Follette for unpatrioticism and disloyalty was introduced today at the chamber's war convention here. The petition was proposed by E. B. Wilson, delegate from Green Bay, Wis., La Follette's home State. He declared that Green Bay chamber resented La Follette's reflecting disloyalty on the State.

Wilson said next six months the demand of the American army abroad will require that the government divert every available American merchant vessel, coastwise and others, to overseas service. E. B. Stevens, vice-chairman of the United States shipping board, today told the war convention.

The real pinch in the world shipping situation will come, Stevens said, early next spring, before the government has begun to turn out vessels in large numbers. Stevens urged business men to go to Congress in support of a bill now pending to empower President Wilson to suspend provisions of the shipping laws so that neutral vessels may be permitted to engage in American coastwise trade.

The government, he said, has found that it has no power to commandeer neutral ships tied up in American ports and put them under the American flag. The neutrals, he said, are ready to put their tonnage to carrying cargoes between American ports whenever this government gives permission. Hundreds of thousands of tons of shipping, he said, are available for this service.

There is not the slightest danger of a deficiency in the supply either of crude oil or its products, kerosene and gasoline, for the use of the United States or its allies, in the opinion of A. C. Bedford of New York, president of the Standard Oil Company of New Jersey.

"America," said Bedford, "is producing and can produce all that will be needed for these purposes. While the oil refining capacity of the country is greater than the present demand, the United States is consuming crude oil at the rate of more than 330,000,000 barrels a year, while the annual production in this country amounts to 312,000,000 barrels. There was in storage in the United States on July 1 last, however, 164,590,943 barrels of petroleum."

"It will thus appear that with the stocks above ground and given the present rate of production and consumption the supply is sufficient to ensure us having enough oil for at least the next five years, providing the production is fairly maintained."

"They tell us the war is to be won in the air. Our country is said to be building large numbers of airplanes. Our allies are building flying machines as fast as they know how. Vital to the very existence of these airplanes is the highest grade of gasoline which can be produced. The prospect is that the present year will call for 8,000,000 barrels of gasoline for our allies in Europe."

STRIKE BEGUN AT NEW YORK DOCKS

NEW YORK, Sept. 19.—With 3500 men employed on docks of the International Mercantile Marine already striking New York's commerce today faces a threatened tie-up. Fifty thousand men, according to officials of the Longshoremen's Union are ready to walk out in sympathy with men who are protesting against employment by the company of a strike-breaker. The company is standing by the man at present, refusing to discharge him.

The first strike was called on the White Star line docks. Later men working on the Cunard and Atlantic transport line docks went out. American line workers were allowed to continue to unload an American liner, because officials said they did not want to embarrass the government by delaying mail.

Other men are out in Hoboken on the Holland-American line piers. The union claims far more men are out on strike than is admitted by the company officials, who persist in the statement that the strike will be settled. Arbitration, agreed to some weeks ago, it was said, has not been completed. They insist the men broke an agreement by striking without an effort at settlement.

Government representatives are on their way from Washington and are expected to arrive for a conference with the men and officials of the company.

WRONG COUNTY LICENSE TAKEN OUT BY COUPLE

So hurried were the wedding preparations of Henry C. McKike, son of Attorney H. C. McKike, when he received a sudden and somewhat unexpected call to take up a commission in the Naval Reserve at San Pedro, that he and his fiancée, Miss Abbott Cutten of San Francisco, made the mistake of taking out a marriage license in Alameda county with the intention of being married in San Francisco. Not until their plans to be married across the bay tonight had been completed did the couple learn that they could be wed only in the county in which the license was issued. They thereupon declared the license taken out in Oakland yesterday null and void and hastily applied for another license in San Francisco.

McKike says he was out in the country when the summons to San Pedro reached him and that he rushed back to town to prepare, wed and answer his country's call all in two days, thus the confusion which resulted in the license error.

The wedding will take place this evening at the home of the bride's uncle, Dr. Alfred Rulison, of 52 West Clay Park San Francisco. The couple will leave for San Pedro tomorrow, where McKike will assume his commission while his bride will live at a Los Angeles hotel.

Miss Cutten is a daughter of Mr. and Mrs. Joseph E. Cutten of 3254 Clay street, San Francisco. McKike's home is 1521 Webster street, this city.

KERENSKY FACES EXTREMIST PERIL

(Continued From Page 1)

and the complicated machinery by which delegates will be selected for the conference on December 11.

Premier Kerensky, from the army front, where he is aiding in investigation of the Korniloff revolt and in planning the rehabilitation of whole army, today issued a proclamation expressing the government's thanks to the committee on public safety formed at the time of the Korniloff rebellion. He asked that they now dissolve, their functions having ceased to be a necessity.

KERENSKY DEFENDS HIMSELF FROM CHARGE

Answering former Foreign Minister Tschernoff's attacks on him, the premier also published through the newspaper, Volnaya Roda the report that all acts of which Tschernoff complained were approved by a majority of the cabinet of which Tschernoff was a member.

Orders for cancellation of the instructions to arrest General Kaledine, hetman of the Don Cossacks, who refused allegiance to the provisional government at the time Korniloff started his rebellion, have been issued.

AVIATORS KILLED

CAMP BORDEN, Ontario, Sept. 19.—Second Lieutenant William E. Cadet Ludford were killed when an airplane in which they were making a flight was struck by another machine endeavoring to pass behind them. The aviator in the machine responsible for the collision was not injured.

- ECONOMY—Easily Digested—A Body Builder
- PLEASURE—This whole grain-food with its rich, nut-like flavor is in the form of crisp, golden granules particularly appealing to the palate.

Costs About One Cent A Dish

600 Chinese Are Killed in Typhoon; Steamships Ashore

AMOY, China, Monday, Sept. 17.—(Delayed)—Over 600 natives were killed by the typhoon which struck Amoy without warning at the end of last week. Eighty-five percent of the water craft in the harbors nearby was destroyed. No foreigners have been reported lost.

Outlying districts cannot be communicated and it is feared great damage has been done there.

One village on the island of Amoy reports that only sixteen out of 200 fishing boats were saved.

The Japanese steamship Anakusa Maru, 2035 tons, is on the rocks, opposite Kulang Su, and it is doubtful if she can be salvaged. The former German steamship Keong-Wai, 1777 tons gross, is in a hopeless position on the Kulang Su rocks.

The Chinese steamer Kango was driven ashore at Kulang Su and the British hulk Shanghai was beached at Amoy. Both of the vessels, it is believed, can be saved.

A RED LETTER DAY

We Reserve

the right to limit quantities where necessary. No reservations.

Since Dollar Day was originated there has never been a time when this unique periodical event was so greatly to be appreciated, never a time when its economies meant so much to the public. The cost of materials and manufacturing has advanced considerably and it is not as easy as in former years to find lots of desirable merchandise offered by the manufacturer at reductions for cash, but the imperative rule of Whitthorne & Swan, Oakland's Store That Undersells, is that EVERY department must provide exceptional Dollar Day Specials, to be secured in the market at concessions in price or taken from regular stock and reduced.

We feel proud indeed of our efforts on this occasion. Savings are almost incredible. In many instances the purchasing power of your dollar is stretched to three and four times its normal capacity. We have provided generously for this sale, but at tomorrow's bargain prices there's no telling how long any item will last.

METHODISTS BEGIN 65TH CONFERENCE

PACIFIC GROVE, Sept. 19.—With the administration of the sacrament of the Lord's Supper by Presiding Bishop Adna W. Leonard, the sixty-fifth annual conference of the Methodist Episcopal Church formally opened this morning with delegates in attendance from all sections of the conference territory, which extends from the southern boundary of Monterey county to the Oregon line. The first session was preceded last evening by an address by Dr. Harry E. Ward of Boston and an informal reception to Bishop Leonard and the delegates.

Following the organization of the conference this morning, a memorial service was held for members of the conference who have passed away during the year. This afternoon the Women's Home Missionary Society is holding its annual meeting with Mrs. M. C. Smith presiding. The program includes addresses by two San Francisco ministers, Dr. A. C. Stevens of Grace Church and the Rev. Paul Smith of Central Church.

This evening there will be an alumnae meeting of the San Francisco National Training School, and a union banquet of the alumni and students of all theological seminaries in Mayflower Congregational Church. These functions will be followed by a conference session at which an address will be delivered by Dr. Edward Laird Mills. Reports on religious activities will be made by Dr. E. P. Dennett for the Oakland district; Dr. Carl M. Warner for the Sacramento district; Dr. George W. White for the San Francisco district and Dr. H. E. Milnes for the Napa district.

There are 278 ministers in the Cal-

CONFERENCE TO FIX PRICES OF STEEL, COPPER

WASHINGTON, Sept. 19.—A final conference on the fixing of prices for steel and copper was held by President Wilson today with the members of the war industries board.

Voluminous records on the cost of production of these commodities were taken to the White House by Secretary Bracken of federal trade commission. These were before the President when he met with the war industries board members. Definite prices for steel and copper are believed to have been recommended to the President by the board. If the President approves the prices will be made known in a statement issued from the White House soon.

TESTS PLANNED

The secretary of the Civil Service Board reports that very few applicants are filing applications for the following examinations:

Lenox laborer, Oct. 4; assistant wharfinger, Oct. 8; journeyman, pile driver, Oct. 11; messenger, Oct. 15; fireman, Oct. 18; office engineer, Oct. 19; purchasing agent, Oct. 22; play ground caretaker, Oct. 25; manager of municipal beachhouse, Oct. 29; chief boatman, Nov. 1; boat attendant, Nov. 8; boatman, Nov. 12; assistant gardener, Nov. 15; assistant department mechanic, Nov. 22; director of rowing, Nov. 26, 1917.

Information regarding these examinations may be secured at Room 316, City Hall, Oakland, Calif.

California Conference including those in regular pastorates and those on trial. There are 26,395 members, and the Conference owns 242 church buildings valued at \$2,713,000. There are 380 parsonages valued at \$350,000 and 132 pastoral charges. The average salary paid to ministers in the Conference is \$1078, including rent.

Presiding Bishop Leonard, who was elected to the position by the General Conference in 1916, is the youngest bishop in the United States. He was born in Berkeley November 2, 1875.

SILVER CAMPS TO BE REOPENED

SAN BERNARDINO, Sept. 19.—Calico, once bonanza silver camp of California, is showing signs of life since silver took its upward trend in the money markets of America.

Calico was one of the famous camps in the early eighties and is said by mining men to have reached its zenith in 1885, when silver sold at \$1.13. Then that metal began to go lower and soon the camp fell into silence; the miners and those who made their gains from the works all drifted to other camps, with the exception of a handful of grizzled men whose faith in their camp and their mines never waned through long years of inactivity. They have waited on 21 their camp in the hills near Daguerre in this county.

Calico was so named because of a peculiar rock formation in the surrounding hills, that gave a spotted effect to the slopes. It was a low-grade producer, with vast ore bodies. The "Silver King" and the "Garfield" were its great mines, with the "Waterloo" an immense low-grade producer. Some of the early fortunes of California came from its shafts and tunnels, notably that of Governor Robert W. Waterman.

Since the silver market has shown improvement engineers and mining men have visited the old camp, they are beginning to place modern machinery and a new cyanide plant is now handling 400 tons of tailings from the old dumps each month. There are 2,000,000 tons of tailings there, so the mill has a fair run in sight. Mining men say that with improved extraction methods, with the substitution of automobiles and light trucks for delivery to a nearby railroad instead of the old-time pack trains and with the general advance in mining science, the old ore bodies can be made to pay fair returns.

San Jose office of The TRIBUNE is located at 34 East Santa Clara avenue. Phone San Jose 4756.

LETTERS SHOWN OPPOSING WAR

SEATTLE, Wash., Sept. 19.—The defense in the trial of Hulet M. Wells, charged by the government with having conspired to resist the draft law, introduced letters from three members of the Washington delegation in Congress in an effort to justify the activity of Wells and his three co-defendants. The letters, addressed to Miss Anna Louise Strong, member of the Seattle school board, were written last February.

One letter from Congressman C. C. Dill, dated February 15, declared that he was heartily in favor of a referendum on the question of war. Another from Dill, dated February 24, spoke of his opposition to the espionage bill.

"Even if nominal war should occur," wrote Senator Miles Poindexter to Miss Strong on February 24, "there cannot be, as I stated during the campaign, real or actual war in view of the conditions such as you point out, namely, that it would be out of the question for us to attempt to invade Germany."

A letter, dated February 19, from Congressman Albert Johnson, suggested that those who supported the President because he kept the United States out of the war "should exert themselves to the utmost to keep the President out of war."

NOGALES, Ariz., Sept. 19.—Eleven of the thirty-eight men composing the second increment of the selective draft army from this point have failed to report to the board and it is alleged they have crossed into Mexico. The missing men were all of Mexican descent.

Federal authorities here estimated that 100 men had crossed the border at unrequented spots near here for the purpose of evading the draft. The estimate was based on reports from selection boards and on information from patrols along the border.

FLY TO MEXICO

NOGALES, Ariz., Sept. 19.—Eleven of the thirty-eight men composing the second increment of the selective draft army from this point have failed to report to the board and it is alleged they have crossed into Mexico. The missing men were all of Mexican descent.

Federal authorities here estimated that 100 men had crossed the border at unrequented spots near here for the purpose of evading the draft. The estimate was based on reports from selection boards and on information from patrols along the border.

John L. Sullivan on Overeating.
John L. Sullivan, the ex-pugilist, says that more people die from overeating than from drink. One of the most prominent physicians in England says that is also the case over there. No wonder that so many people are troubled with indigestion. If you have trouble with your stomach adopt a diet suited to your age and occupation. Then if you should have indigestion take Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. For sale by Osgood Bros. drug stores.—Advertisement.

SAN FRANCISCO LOS ANGELES SAN DIEGO

MUST OPEN ROADS, SAY SUPERVISORS

Chairman D. J. Murphy and the Alameda County Board of Supervisors are going to have a distinct understanding with the State Highway Commission as to the completion of the state highway system in Alameda county, and the ceding of the State Highway Commission by the Alameda County Supervisors yesterday for an explanation means that the county officials and the state officials have finally come to an open clash. The winter is approaching and the Livermore Valley State Highway lateral bids fair to be tied up at two points, one in the Altamont Pass and the other between Dublin and Santa Rita. Both these sections are still under construction, and material can not be secured by the contractors from the State Highway Commission for the completion of the work. Under these conditions the State Highway Commission the commission supplies the gravel and cement and the contractors merely do the grading and set the concrete. The contractors claim they are unable to get the necessary materials.

PEOPLE CONCERNED.
Not only are the people of the Livermore Valley seriously concerned over this condition, but the vast number of automobile travelers who use this highway to and from the San Joaquin Valley are anxious to know what is going to be done this winter. "I don't propose to have these roads closed during the winter," said Chairman Murphy of the Alameda county board. "The contractors say that they can complete the Dublin-Santa Rita section if they can get the material, and the Altamont Pass can be kept open and safe for travel if certain things are done. I propose to see that the State Highway Commission supplies the material for one link and that it makes the proper arrangements to keep the Altamont Pass open. It don't look as if they were keeping faith with Alameda county. We bought their bonds when they needed the money and they have not lived up to the agreements that they made at that time."

SITUATION SERIOUS.
"This is a serious situation. This Livermore Valley lateral is the most traveled piece of road in the whole State and they can't sacrifice this road for some little jerk-water piece up in the mountains. "I have been trying for a month to get satisfaction from various officials and if I can't get it regularly we will file them before our board officially. If they won't come when we ask them they will come when we force them."

"If they think they can tie up half of Alameda county and the most important road leading out of San Francisco and the bay district they are mistaken. This is a show down."

LIBERTY BONDS TO BE DELIVERED

WASHINGTON, Sept. 12.—Delivery of Liberty bonds to subscribers, Secretary McAdoo announced, will begin September 26. The twelve federal reserve banks will distribute the issue. Considering the probable retention by many subscribers of interim certificates, already issued, officials estimate that the work of distribution will require several weeks.

The huge issue is larger in the number of bonds required than first reports, based on more than 4,000,000 individual subscriptions, indicated. The number of coupon bonds, Secretary McAdoo announced, is estimated by federal reserve banks as in excess of 7,000,000 pieces, of which more than 7,000,000 are of the \$50 and \$100 denominations.

In announcing the date for the commencement of deliveries, Secretary McAdoo repeated his suggestion that holders of interim certificates would find it to their advantage in many instances to hold the certificates instead of exchanging them for bonds until Congress disposes of the bill authorizing a 4 per cent interest rate on the next offering.

"It is apparent," read Secretary McAdoo's statement, "that if pending legislation should be enacted, and bonds should be issued bearing interest at a higher rate than 3 1/2 per cent per annum and exempt from

TANGLED LOVE STORY SECRET BUT TO DRAFT

LOS ANGELES, Sept. 12.—That into the very innermost secrets of the soul the draft law intrudes with unsparring publicity was evident today when it became known before one of the exemption boards here today that one man's wife and another child were Jesse F. Tingstrom's dependents.

Tingstrom was cited as a "slacker." Then it became known that his "wife" was Mrs. Bertha M. Young and his "child" the baby of a Mr. and Mrs. Wilkinson, from whom Tingstrom adopted it. Back of the strange tangle of love is an old romance. Love, unsatisfied when they could not marry years ago in their youth, drew them together when Tingstrom found Mrs. Young penniless, deserted by her husband here recently, it is alleged. They were living together before the draft law and had adopted the child.

SUSPECT CAUGHT

MONTREAL, Sept. 12.—Henri Monette, alias Charles Edouard Girard, the alleged leader of the gang that dynamited the summer home of Lord Atholstan on August 9, was captured at Pointe-aux-Trembles. A reward of \$5,000 had been offered for Girard's capture, dead or alive.

The normal income tax, in view of the resulting privilege of conversion, the demand for definitive 2 1/2 per cent Liberty bonds, particularly those of the small denominations would be greatly reduced.

WOULD RESTORE DEFUNCT CONCERN

An effort is being made to revive the defunct Western Fuse and Explosive Company in order to sue for the recovery of \$30,000 damages for which a judgment was entered following an explosion that wrecked the plant in 1938. Henry Sievers and Xavier Fischer today petitioned for the restoration of the company by the appointment of directors to fill the vacancies caused by deaths and resignations.

The petitioners assert that the company forfeited its right to do business by failing to pay its corporation tax in 1938. They are still creditors of the company to the amount of the \$30,000 judgment, and they want the company restored in order that it may exercise its right to recover certain real estate which was conveyed away by its former president, E. J. Pittman, who is now in Alaska. They claim that Pittman is now in possession of the real property they seek to recover for the satisfaction of the judgment.

At the time of the explosion the petitioners in the action for restoration were damaged in the amount of the judgment.

RUSS RECOGNIZED

BUENOS AIRES, Sept. 12.—Argentina has recognized the new republic of Russia. President Irigoyen has signed a decree to that effect.

METAL WORKERS CONTINUE WORK, BUT AID STRIKE

SEATTLE, Sept. 12.—Twelve to fifteen thousand metal trades workers employed in the steel shipyards here continued work today pending some sort of settlement of labor difficulties at Washington, D. C., but at the same time announced they were in absolute sympathy with the strike against ten-hour lumbard and pledged their moral and financial support to the fight for eight-hour labor.

A meeting of the metal trades workers held last night pledged its support of the twelve separate unions embraced in the trade and announced that the only thing which kept them from walking out was an agreement to remain at work until government mediators settled their difficulties with shipbuilders.

With the exception of all but walking out in sympathy, the workers will go down the line with the building trades council in its fight on ten-hour lumbard, said A. E. Miller, secretary of the council, after the meeting.

CONVICTS ESCAPE

SALEM, Ore., Sept. 12.—Baldwin, sentenced from Clatsop county in 1935 for larceny, and John Ryan, committed from Multnomah county in 1918 for burglary, have escaped from the penitentiary. They were several years ago. Baldwin has a bad reputation and gave former warden John Minto much trouble. Baldwin was serving a seven-year term and Ryan a five-year term.

OLD EXPLOSION IS CAUSE OF APPEAL

J. F. Fernandez, whose home was razed with some forty other buildings nineteen years ago, when the Melrose powder magazine was blown up, is still seeking to collect \$925 damages from the Western Fuse and Explosives Company. His appeal from the appellate court to the supreme court was filed yesterday. Of the forty damage suits originally started against the company only two have survived and are still pending.

Melrose was almost blown out of existence on the afternoon of July 13, 1898, when a Chinese employee of the powder works murdered one of his countrymen and took refuge in the powder magazine. While a constable and posse were standing at the door demanding his surrender, the Chinese touched a match to 5000 pounds of black powder. The explosion killed the Chinese, the constable and several members of the posse and crumpled up nearly all the buildings surrounding, including the schoolhouse, postoffice and rope-making plant.

Forty suits for damages were filed within the following year. Fernandez won a judgment in the superior court years ago, but the defendant carried the case to the appellate court, and after several years' battle the judgment was reversed. Now it is Fernandez who is appealing to the highest court in the State.

EIGHT-HOUR DAY IS RULE AT CITY HALL

City employees will be required to work a full eight-hour day under the provisions of an ordinance submitted by the Civil Service Board to the City Council today. The new ordinance fixes the hours from 8 a. m. to 5 p. m., with a lunch hour at noon. Heretofore city employees, for the most part, in the departments have started in the day's work at 9 o'clock, with an hour off for lunch and quit at 5 o'clock, which netted the city only seven hours' time a day for each employee. The present arrangement has its exceptions, however. The Civil Service Board at its meeting last night decided upon passing the ordinance to the Council for consideration. The measure follows closely upon the heels of surveys made in the different departments that have resulted in many positions being consolidated or abolished. Under the new system many working hours per day will be added to the time devoted to city affairs. The suggestion is along the lines of the daylight saving plan which has been in force in England for some time past and is the answer of the civil service board to criticism against the curtailment of help in different departments where the city's business has been handicapped for lack of sufficient force. Whether the added hours will offset this deficiency remains for trial.

The board has taken under advisement the matter of filling the position of first assistant fire chief which was recommended to be held vacant some time ago. The filling of the position would result in promotions all along the line in the department. The board finally denied the appeal of Wilfred Ball, who contested the action of the council in abolishing the position he held as building construction inspector and combining the job with that of superintendent of construction now filled by Robert F. Moles.

ACTOR SENTENCED

Smythe Davies, until recently an actor with a local stock company, was sentenced to serve twenty days in the city prison without an alternative of a fine, by Judge Mortimer Smith today on a charge of disturbing the peace. Davies pleaded guilty to having molested a 15-year-old girl as she was walking in a downtown street. Citizens to whom the girl appealed for protection arrested Davies and turned him over to the police.

Who'll Give These Things?

These articles are needed at once by Oakland's drafted boys at Camp Lewis, American Lake, Washington:

- 1 dozen volley balls and nets.
- 2 dozen soccer footballs.
- 1 dozen basemen's mitts.
- 2 dozen medicine balls.
- 4 dozen baseball gloves.
- 2 dozen indoor baseballs.
- 4 dozen baseball bats.
- 2 dozen sets boxing gloves.
- 10 dozen baseballs.
- 5 stop watches.
- 1 dozen basket balls, rings and nets.
- 5 tape measures.

The Oakland TRIBUNE will be the custodian of a fund to supply the soldier boys with these sporting goods. How much will YOU contribute?

Life in the cantonments where the young men of America are being trained for service in the new national army is not to be all hard work and no play. Orders have come from the war department that sports are to be encouraged. In every training camp competitive sports are to be a regular feature of the day's program.

ORGANIZE TEAMS. Officers have been detailed in each regiment to organize teams in each company from which men will be chosen to form a team representing their regiment in all brigade and division contests. There are to be spirited rivalries between companies, between regiments and between divisions in baseball, football, boxing, running, jumping, basket ball and volley ball.

Oakland boys who are being called to Camp Lewis are assigned to the Third Hundred and Sixty-third Regiment of Infantry. Captain Edwin E. Callahan is the officer assigned to supervise the sports in this regiment, and he has sent to The Oakland TRIBUNE an appeal for the necessary paraphernalia. "We have no funds," he writes, "with which to purchase the necessary equipment and we can see no chance of an appropriation. Will you help us or advise me of some civic body that would raise the money?"

MARRIED MEN TO BE ENLISTED DENIES SPAIN IS AIDING GERMANS

WASHINGTON, Sept. 19.—The Spanish ambassador Juan Riano issued an official statement today denouncing published reports that the Mediterranean coast of Spain is serving as a base for German submarines. "The Spanish government," said the ambassador, "has prohibited the use of its ports and the entry into its jurisdictional waters to submarines of the belligerent powers and any belligerent submarine that enters a Spanish port is interned until the end of the war."

White cavalry regiments have vacancies for the first time in several months and recruits are wanted in that portion of Uncle Sam's fighting forces. Applicants who pass preliminary tests, will be admitted to the ranks, whether or not they have had previous training. For the engineer detachments, 1800 men are in demand. They will be utilized for depot work.

PAPER DAY YIELD NOT UP TO MARK

That Newspaper Day will not yield nearly the amounts first announced became known today. Despite well-advertised warnings to Oakland householders to tie their old newspapers in compact bundles, committee workers said today that at least one-fourth of the seven carloads gathered by Boy Scouts and enthusiastic workers had been placed on doorsteps or in public places untied.

The Coast Waste Product Company, with whom local Newspaper Day heads contracted for the entire supply of old journals, will give the best possible price to the campaign workers. The entire seven cars have been shipped to the corporation's Antioch mill. There much of the news print paper will be separated from telephone directories, old magazines and other like material, which appeared in unusual quantity, despite steady warning that they were not wanted.

According to campaign heads, many of the committee members worked steadily for two days, endeavoring to tie as many loose bundles of papers as possible. Three carloads were completed before urgent orders came from railroad companies to clear the tracks. The four remaining cars, which were sent to the mill, contained one-half tied bundles of papers while the other half was untied.

Boy Scouts to the number of 700, whose efforts last Saturday aided in making the day a success, will be entertained by individual members of committees next Saturday. Funds for the entertainment were provided by individuals in the campaign. In the morning the boys will be guests at Piedmont Baths. Later, "Knights of the Square Table," a Boy Scout film, will be shown at the Kinema Theater for their pleasure. Following a watermelon feed at the Boy Scout headquarters in the afternoon, the boys will adjourn in a body to the University of California field, where they will watch the football game.

"DRYS" CELEBRATE

Temperance workers in the east bay communities will celebrate the event of the national capital going dry at a meeting under the auspices of the Alameda County Prohibition Committee in Oakland on the evening of November 1. Members of all temperance organizations are invited to participate. It is expected that Dr. Gandier, superintendent of the Anti-Saloon League in the state of California, will be one of the speakers. Light refreshments will be served.

WHOLESALE IS BANKRUPT. SAN FRANCISCO, Sept. 19.—Otto A. Olsen, a wholesale dealer at Sunnyvale, Santa Clara county, filed a petition in bankruptcy in the superior court today with liabilities of \$17,394.06 and assets of \$13,731.

BUSINESS NOTICE

KAHN'S ENGAGES
WELL KNOWN
HAIR SPECIALISTProf. John H. Austin of
Chicago

Prof. Austin needs no introduction to the people of Oakland, as he is a bacteriologist, hair, scalp and beauty specialist of nation-wide reputation. Prof. Austin has had thirty-eight years' experience as a hair specialist, and has won medals and recognition for his work in both Europe and America.

Prof. Austin says that using dandruff cures, mange cures, etc., without the proper advice is like taking medicine without knowing what you are trying to cure. The particular trouble with which your hair or scalp is afflicted—and there are many of them—must be known before it can be intelligently treated. For example, one person may require an astringent, another a healing ointment, and another an antiseptic for itching scalp, and still another something to relieve an excessively oily condition.

With the aid of a powerful compound microscope, Prof. Austin is able to quickly determine the exact cause of the trouble, and will tell each one what is best to do in his or her particular case.

During the past three years, Prof. Austin has made more than 50,000 free microscopic examinations of the hair and scalps of Los Angeles people. Both men and women are invited to take advantage of a free examination by Professor Austin. Women need not take down their hair for the examination. His office hours are from 10 to 12 in the morning and 2 to 4 in the afternoon. Private office on main floor in drug department.

TOURIST TRAVEL
WILL BE URGED

Representatives of tourist associations, transportation companies, good roads' organizations and commercial bodies are making arrangements to attend the assembly of the Tourist Association of California which meets in San Francisco September 25 for a two-day session. The session will be under direction of Frederick D. Cloud, manager of the association.

ENGINEERS FOR
NEW UNIT WANTED

Many in Oakland's ranks of skilled workmen are expected to answer the urgent call for more men for the Western division of the Engineers' Corps as the result of an enlistment campaign for that branch of the service now being conducted by the local recruiting officer at 909 Broadway. Three hundred of these engineer troops are now encamped at Palo Alto. Another 300 are required before the Western unit goes to France, which it is believed will be sent as soon as it is brought to full strength. In a small pamphlet issued by the war department dealing with the Engineer Corps it is pointed out that the duties of engineer troops are so varied that any man with technical training can be so placed that he may employ his training with advantage to his country and with pleasure and profit to himself. Any man between the ages of 18 and 40, both inclusive, who is physically qualified, may volunteer for an engineer organization, provided that he shows that he is experienced or skilled in any engineering trade or is a "handy man" who is especially suitable for engineering work. Engineers pay while on service abroad ranges from \$33 for privates to \$96 for master engineers of the senior grade.

LEASE DEBATE
WILL BE HEARD

"Shall the Union Construction Company Lease Be Granted?" is the subject of a debate to be held before the Civic Association and members of all civic and improvement clubs of the city at the Bacon building assembly hall Friday evening. E. L. Vander Naillon, speaking for the lease, and Fred E. Reed, opposing it, will be the speakers. The debate is the result of a battle of words precipitated at the last meeting of the association, when the mention of the lease at the close of the session aroused such a storm of varied comment that the meeting was prolonged for over an hour. Invitations are being issued to all organizations throughout the city, and it is to be an open forum session at which the speakers will be required to answer questions from the floor at the close of the debate.

September 25 for a two-day session. The session will be under direction of Frederick D. Cloud, manager of the association.

Delegates from the Oakland Chamber of Commerce will attend the convocation which is in the interest of tourist development work of all kinds. Representatives from Vancouver and San Diego on the south are expected.

A portion of the work to be undertaken at the meeting is the formulation of a general tourist program for the handling of the business of the association.

It is expected that several hundred representatives will attend the sessions which are to be held in the Palace Hotel.

Mary Pickford
Will Appear in
New Film PlayRebecca, Charming Child's Story,
Is Latest Vehicle of Noted
Film Celebrity.

After phenomenal success had been attained by the book and on the stage, "Rebecca of Sunnybrook Farm," from the pen of Kate Douglas Wiggin, is to be projected in film form and, with Mary Pickford in the title role, will be shown at the New T. & D. Theater this week-end, starting Wednesday. When first produced upon the stage several seasons ago, the play was hailed as an appealing and compelling presentation of child life and young womanhood, and proved one of the biggest successes. The motion picture rights were then sought by many producers and for many stars of the screen. Meanwhile Mary Pickford had been besieged by great numbers of her admirers asking her to play this delightful character. Mary Pickford is just the person to portray the national type of Rebecca, the little country girl who fought her battles alone and traveled a particularly rough road leading to her womanhood and the many charms and quaint situations of the story will be found to have been brought out as only Mary Pickford can.

McDONALD-GREEN
GET NEW AGENCY

By EDMUND CRINNION.
An announcement significant of the trend of affairs in the motor car business was made yesterday when the Smith Form-A Truck Corporation confirmed the rumor that for several days had connected the McDonald-Green Motor Company with the distributing rights of the Smith Form-A truck attachments for the territory of Alameda, Contra Costa and Santa Clara counties.

This move gives the McDonald-Green Motor Company one of the best lineups possible to cope with the coming business season when horses and drivers will be at too high a premium for the merchant to consider them in his business and all delivery work must be motorized in order to keep delivery costs within the bounds of reason.

The Smith Form-A truck is an attachment that can be connected up with any used car or a new Ford, if preferred, and thereby forms a truck of the vehicle. The Smith Form-A truck is built in different sizes and styles to connect with all makes of cars and convert them into trucks of most any capacity desired. The idea carried out is the substitution of the rear end of the chassis from a used far or new Ford with the truck attachment. The front end of the chassis, wheels and motor and all remain without a change and the gear ratio is taken care of in the truck attachment.

One of the big features in connection with the Smith Form-A truck attachment is the fact that it practically solves the used car question inasmuch as it is possible to make a first class truck out of any old used car irrespective of its condition at a remarkably low cost. This fact will mean much at the present time when conservation is the watchword of the nation and there is in every section of the country almost countless old machines that have outlived their usefulness as passenger automobiles and are lying around ready for the junk man. With the use of these Form-A truck attachments the power plants of these old cars can be turned into the most serviceable kind of motor trucks.

The first shipment of the new Smith Form-A truck attachments have already arrived here and McDonald-Green Motor Company will soon be on the job converting old cars and new Fords into profit-making trucks.

AUTOMOBILE MEN GET TOGETHER.
The California Automobile Trade Association composed of over 2000 members throughout the State will meet in convention Thursday, September 20, at the St. Francis Hotel, at 10 a. m. Representatives of the automobile industry from Siskiyou to San Diego will be there. It will be one of the most important meetings ever held by this association. Matters of great moment to the automobile industry will be taken up. The proposition of protecting the automobile public from unscrupulous garages and machine shops will be gone into thoroughly.

The meeting is being held in San Francisco at the invitation of the San Francisco Automobile Trade Association, of which W. L. Hughson, president of the Pacific Kiesel Car Company is the president, Chester N. Weaver and J. E. Kelly the vice-presidents, and A. D. Ellet, the secretary.

At 7:30 in the evening an elaborate banquet will be served at the St. Francis Hotel for the delegates and all visiting members, and anyone connected with the automobile industry is invited to be present.

Among the speakers will be Dr. Hartland Leav, Honorable Samuel Shortridge and Percy Towne, all of whom will speak on subjects very pertinent to the automobile trade and the automobile consuming public.

The officers of the California Automobile Trade Association are J. E. Sloan of San Jose, president; J. C. Draper of San Bernardino, J. E. Kelly of San Francisco, C. A. Lamas of Sacramento, and B. W. Sinclair of San Diego, vice-presidents; and Bob Martland of Oakland, secretary.

FROM FRANCE.
Out of the region of "No Man's Land" comes praise for an American motor car. And it comes from a former Detroit car who has been at the front since the beginning of the war.

Charles H. Stringer, lieutenant Royal Field Artillery, O. C., 47th Anti-Aircraft Section, writes from a dugout in France about a trip he recently made in a Hudson Super-Six. This car, which was purchased by the French government, was loaned to the Portuguese Army, and is being used for field work. Colonel Brito, chief of the Portuguese staff in France, uses the car. Lieutenant Stringer tells of a trip made recently over very hilly country, and of how well the Super-Six performed. And the admiration of the Portuguese staff for the Hudson.

THE THOUSAND OAKS LAND COMPANY
has filed an application for dissolution, winding up of its affairs and a distribution of the assets. The directors of the company are: J. H. Spring, George H. Hend, C. C. Campbell, S. S. Hickman and G. H. Hann. All claims and liabilities of the company have been satisfied.

The Thousand Oaks Land Company's uncollected properties were principally disposed of last spring to the Berkeley Thousand Oaks Realty Company, of which A. C. Parsons and Robert Marsh were the organizers. The remaining assets have been transferred to the Spring Estate Company, and there being no further use for the Thousand Oaks Land Company, its dissolution has been asked for.

In like manner the holdings of a number of the subsidiary companies in which J. H. Spring is principal owner are being transferred to the Spring Estate Company and the subsidiary companies dissolved.

MOYLE SLATED
FOR BIG OFFICE

WASHINGTON, Sept. 19.—James Moyle of Salt Lake City is slated to succeed Byron R. Newton as assistant secretary of the treasury, it was learned at the White House this afternoon. Newton was named collector of the port of New York, succeeding Dudley Field Malone.

Moyle is a member of the Democratic state committee of Utah. His appointment will come as Utah's reward for swinging in line behind President Wilson in the last presidential campaign.

HOUSEWIVES TO
BE ASKED FOR
NEW RECIPES

Housewives of Alameda county who possess ingenuity in following the Hoover menu of food conservation, will have an opportunity to win unique distinction as a result of the determination of the Advertising Bureau of the Oakland Chamber of Commerce to boost for the food administration's program.

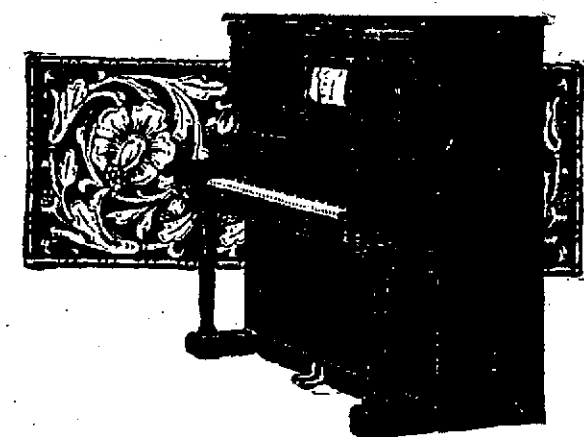

The Hoover menu served at the Ad Club luncheon yesterday made such a favorable impression that word has been sent out that any housewife who can discover a new way of utilizing or preparing food, can send her idea to the bureau, and it will be tried out at a regular Ad Bureau luncheon. The author will be the guest of honor on that occasion.

POLICEMAN SLAIN
AT ELECTION ROW

PHILADELPHIA, Sept. 19.—A riot today in the Fifth Ward of this city, where two factions of the Republican party are bitterly fighting for control, resulted in the killing of a policeman and the wounding of several other police workers.

George Eppley, a policeman, was shot dead, and James A. Carey, a city official and a leader of one of the factions, was wounded.

Primary elections are being held throughout Pennsylvania today for local offices.

The Duo Art Piano
Brings the Great Masters
Into Your Home

The DUO ART reproduces, automatically, the playing of great concert pianists. You may hear in your own home such great artists as Bauer, Hambourg, Saint-Saens, Powell, Grainger, Busoni, Ganz, Gabrilowitsch—a constantly increasing list of the most famous virtuosi of the piano-forte.

The DUO ART is a Pianola of the highest type—without question the most wonderful of all player instruments. You yourself may play it with delightful skill.

The DUO ART is a pianoforte of supreme musical excellence—a Steinway, Weber, Steck or Stroud.

We cordially invite you to hear the DUO ART.

Save the Babies

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save many of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. There can be no danger in the use of Castoria if it bears the signature of Chas. H. Fletcher as it contains no opiates or narcotics of any kind.

Letters from Prominent Physicians
addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."

Dr. Frederick D. Rogers, of Chicago, Ill., says: "I have found Fletcher's Castoria very useful in the treatment of children's complaints."

Dr. William C. Bloomer, of Cleveland, Ohio, says: "In my practice I am glad to recommend your Castoria, knowing it is perfectly harmless and always satisfactory."

Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."

Dr. J. D. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."

Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merits."

GENERAL HEARD IN OWN DEFENSE

PETROGRAD, Sept. 19.—Witnesses in the trial of General Soukhomlinoff, the former Russian minister of war, who is facing a charge of high treason, having concluded their evidence the general today was invited to give any explanations he might wish to make. Speaking in a weak, tired voice, he endeavored to prove the necessity of dismantling Russian forts, for which he had given orders. He declared that owing to the conditions of modern warfare the fortresses long had lost all their strategic importance and would only have been traps for the retreating troops.

"At the time of the Russo-Turkish campaign," he said, "I gained the conviction that provisional defensive works constructed while hostilities were in progress of far greater importance than utility."

General Soukhomlinoff concluded by saying he never concerned himself with politics, but worked exclusively for the welfare of the Fatherland.

MAY SEE BIG GAME

CHICAGO, Sept. 19.—President Wilson and "party" have been invited to attend the world's series, which is being played at the Polo Grounds in New York City, between the New York Yankees and the Cincinnati Reds, announced today. If the invitation is accepted a special military program will be given in his honor.

LOSSES OF WEEK

LONDON, Sept. 19.—Casualties in the British ranks reported for the week ending yesterday follow: Killed or died of wounds, 135 officers and 4,755 men; officers wounded or missing, 431; men wounded or missing, 21,843.

FOR MARTIAL LAW

BUENOS AIRES, Sept. 19.—So serious has become the labor situation in Argentina that martial law may be declared. The government is threatening the mobilization of the entire wheat crop, an event that would have world-wide importance.

News from Labor Headquarters

News arrived at union headquarters today that Ben F. Bowber, of the Oakland Central Labor Council, was elected last evening as an international vice-president of the general organization at the convention in Providence, R. I.

The Amalgamated Association of Street and Electrical Railway Employees, as the general body is known, named W. D. Mahon to serve again as president, and Bowber, Joseph Gibbons of Toronto, Fred T. Hoover of Vancouver and George A. Dean of Stockton as vice-presidents. Resin Orr of Fort Wayne was named treasurer and A. H. Burt, Salt Lake City, general secretary.

Bowber has been prominent for years in the union labor movement of Oakland and of the state in general.

Proceeds of the big union picnic held under the auspices of the San Francisco Labor Council, and in which the Oakland Central Labor Council co-operated, will be turned over to the Workers' Defense League, to be used in the defense of the Mooney and other bomb plot cases on trial at San Francisco.

The affair was held at East Shore Park and the mayor of Richmond addressed the guests. Full financial returns will be totaled this week.

Oakland printers have received the resolution, adopted by International Typographical Union at its sixty-third annual convention in Colorado Springs, opposing the proposed taxation of newspaper profits and raising of newspaper mail rates. The convention held that such legislation would work a serious hardship on an industry that does not make war profits, that it would impose a burden on an industry already bearing heavier financial burdens than any other industry, and that it would mean curtailment of newspaper efficiency which, it holds, is a direct benefit to the government. All local unions will be asked to concur in the resolution.

Committees of the Union Labor League are outlining plans for a winter campaign, seeking to encourage insubordination by the public of union labels on goods and commodities. Mrs. H. W. Castro is in charge of the campaign plans. Several meetings will be held before the winter campaign starts. The league recently finished a successful campaign among bakers to have the union label placed on bakery goods.

A comparative report, showing how recent raises in prices of commodities have affected the cost of supporting the average workman's family, is being prepared by the Central Labor Council. The report will be planned according to the rules laid down by Professor Meyer E. Jaffe in his late bulletin on food standards, and will deal with prices on the twelfth of this month. Spooner assumed the average family to be man, wife and two children, in his basis for calculation.

Dr. S. W. Lott of the Central Labor Council has entirely recovered from the sprained ankle he sustained on Labor Day when, at the union picnic, he slipped from a springboard while engaging in a diving contest against the champion woman diver at Idora Park. He was unable for a short time, but the injury was not serious.

Returns on the Labor Day picnic will be made at the next meeting of the Building Trades and General Labor Council, the financial committee having received reports from practically every union taking tickets.

APPEAL IS DENIED

SAN FRANCISCO, Sept. 19.—The supreme court today refused to reopen for redistribution the estate of Bernardo Yorba, involving \$6,000 acres of land in Los Angeles, Orange and Riverside counties valued at many millions of dollars. The decision denied the appeal of Beatrice Arnaz de Johnson for a reversal of the order of Superior Judge James C. Rives, which declared the estate finally closed and the property legally distributed.

CHINESE INDICTED

SAN FRANCISCO, Sept. 19.—Five indictments were returned today against Chinese are charged with conspiring to smuggle Orientals into the United States, mark the first steps toward prosecution of an international conspiracy against the immigration laws, according to federal officials today. The indictments were placed on secret file. They resulted from the exposure by the Department of Labor of Chinese smuggling operations at Angel Island immigration station.

AUTOS ARE IDLE

HAVANA, Sept. 19.—More than a thousand automobiles in Havana have been forced into retirement by action of retail gasoline dealers in jumping the price from 47 cents a gallon to \$1.00 and in some instances to \$1.20. Prosecutions of the dealers are threatened.

DANCE CHORUS TO GIVE SERVICE

SAN FRANCISCO, Sept. 19.—Dr. Henry Frank, leader of the First Interdenominational Church under whose auspices Ted Shawn, the dance celebrant, was given the first opportunity in America to exhibit his religious dances, announced at the Scottish Rite Hall last night that as soon as a chorus of dancers could be introduced to give the act he would introduce it as a feature of his Sunday services. In his lecture at the Shawn dance, Dr. Frank said in part:

PAIR RELEASED

HARTFORD, Conn., Sept. 19.—Judgment of not guilty was entered by Judge Edwin C. Dickinson today in the breach of the peace case against Mrs. Annie R. Hale of New York and Alfred E. Whitehead of this city, who were arrested Sunday after an attack on the President and the war by Mrs. Hale at a meeting of the Hartford branch of the People's Council of America for Democracy and Peace. It was said by the United States district attorney that there was no statute on which the two could be prosecuted.

DUTCH EMBARGO

AMSTERDAM, Sept. 19.—A complete embargo on the shipment of merchandise from the United States to Holland was predicted today as one of the moves of the American government may take in its restrictive campaign against this nation and the Scandinavian countries. The semi-official newspaper, Nieuwe Courant, in commenting upon the probable embargo, says it may go into effect tomorrow.

FLAGS TORN DOWN

CHICAGO, Ill., Sept. 19.—Tear and feathers await the man who tore the American flag from buildings here during the night and a reward of \$500 was posted today for information leading to the capture of the man.

Chinese gave farewell for its drafted men last night, and the town was flag-draped. Awakening to see their men to the train today, citizens found flags and bunting torn, down and trampled in the dirt in the streets.

TWO ARE HELD

LOS ANGELES, Sept. 19.—Accused of a plot to cheat the draft law by administering a certain drug to Richard B. Boyles so that his physical condition would be rendered below the examination standard, W. J. Sullivan and Howard Cook are in jail here today. The men are said to have claimed the drug would keep young men out of condition ten days, long enough to fail in this physical test.

HELD FOR JURY

DAYTON, O., Sept. 19.—Charged with telling conscripted men to "go home and shoot the first man who comes after you," Jacob Brenner, a farmer, was bound over to the federal grand jury under \$10,000 bond. Brenner also is said to have predicted "fighting at every cross-roads."

HONOR SOLDIERS CITY PURCHASER

VALLEJO, Sept. 19.—A banquet and dance was held at San Pablo Hall in this city last night in honor of the young men who left today for American Lake, Wash., and the affair was one of the biggest social events ever held in Vallejo. Each man was presented with a trench mirror and a comfort bag.

J. H. Brill was today formally appointed by the city council as temporary purchasing agent at a salary of \$200 a month. He will enter upon his new duties tomorrow. The position may be filled temporarily until the civil service board holds an examination for the position.

Ugh! Calomel Sickens; Salivates!

Please Try Dodson's Liver Tone

I am sincere! My medicine does not upset liver and bowels so you lose a day's work.

You're bilious! Your liver is sluggish! You feel lazy, drowsy and all knocked out. Your head is dull, your tongue is coated; breath bad, stomach sour and bowels constipated. But don't take salivating calomel. It makes you sick; you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping. If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of Dodson's Liver Tone. It's the only medicine that cleanses the liver and bowels without hurting. Millions of people are using Dodson's Liver Tone instead of calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here. —Advertisement

WEDNESDAY, SEPTEMBER 19, 1917.

AMERICA'S FINANCIAL PROGRAM.

With the \$2,400,000,000 emergency war tax bill in conference and the \$11,500,000,000 war credits bill passed without a record vote by both houses of Congress, the main features of the government's financial program for the fiscal year ending June 30, 1918, have been completed. With the exception of minor details of distributing taxation against which legitimate objection might have been offered, the administration appears to have devised a sound, workable plan of financing the war.

The estimated expenditures for the current fiscal year, after deducting receipts under existing laws, will be, according to the Treasury Department, about \$10,449,000,000, from which the \$2,000,000,000 of bonds already issued may be deducted, leaving substantially \$8,500,000,000 to be provided for. The emergency revenue bill will raise \$2,400,000,000. Under this arrangement 28.3 percent of the war costs will be met by current taxation and 71.8 by bond issues.

Thus in the first year of the war the United States proposes to raise by direct taxation 9 percent more than England during the third year of the war, 21 percent more than France or Germany and 27 percent more than Canada. In view of the fact that England ranks higher than any other nation in the management of revenue and finance, the tax burden imposed by Congress certainly seems to be high enough. During the second year of the war it may be possible to levy heavier taxes, but if it is not unwise in the first year to experiment with the unquestionably safe 28 percent and observe whether a larger burden would suppress business and dry up many large sources of revenue.

THE NEW WAR BONDS.

The new war credits bill of eleven and one-half billions provides for the issuance of new long-term bonds to the amount of \$7,538,000,000 and \$4,000,000,000 one-year certificates of indebtedness. Of the bonds authorization is given to loan our allies \$1,000,000,000, "and in addition thereto the unexpended balance of the appropriations made by the act of April, 1917." This "unexpended balance" is presumed to be \$1,000,000,000, as the act of April last authorized \$3,000,000,000 and only \$2,000,000,000 were issued under the Liberty Loan of last June.

The new bonds will differ from the first issue in two respects. First, they may be sold at a rate of interest "not to exceed four percent" instead of 3½ percent, and, second, they shall be liable to certain taxes. Section 7 of the new war bond bill provides:

"All such bonds shall be exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess profits or war-profits taxes, now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations or corporations."

It has been officially stated that the Secretary of the Treasury will offer the new bonds at four cent and that holders of the first Liberty Bonds will be permitted to exchange their holdings for the new issue without cost. Mr. McAdoo has explained the anticipated effect of this plan as follows:

"The field of the great middle class and the well-to-do people of moderate means was barely touched by the first issue of 3½ per cent bonds, and the belief is that 4 per cent bonds, exempt from the normal tax will appeal much more strongly to such people than did the first Liberty Bonds."

Of course, these classes and the individuals who invest the savings of salary or wages in government bonds will not be affected by the provision for imposing the surtax on incomes and the excess profits tax. To them the new bonds will be in reality a non-taxable 4 per cent security. Of the subscriptions to the first Liberty Loan, \$1,296,684,850 was made up of subscription of \$10,000 or less and it is to be expected that a large portion of these will be converted into the new 4 per cent bonds.

Mr. McAdoo explained before the House Ways and Means Committee that the limited taxation of the bonds was not intended and would not work as a discrimination against the rich:

"They will share with people of modest means

the benefit of exemption from normal taxes. They will not, however, be able to obtain through the purchase of government bonds exemption from the burden incident to the established policy of the United States of imposing taxes on an ascending scale graduated according to the means of the taxpayer."

With the imposition of surtaxes of incomes and excess profits tax it was inevitable that the government would levy a tax on the income from government securities forming part of great individual or corporation incomes. Such a policy is justified on the theory that many persons would attempt to escape their war tax burdens by converting their other securities and sources of incomes into non-taxable government bonds.

STATE POSTPONES ITS DUTY.

That the State Highway Commission has failed to fulfill its obligation to Alameda County in the matter of constructing sections of the State highways is definitely established by the record of facts. Whether the commission has been guilty of deliberate and reprehensible neglect or merely prevented from doing its duty by insuperable physical obstacles may be determined after an explanation has been vouchsafed by the commission.

According to the county supervisors, when Alameda County purchased a block of State highway bonds two years ago the State commission pledged itself to perform a certain amount of highway building. Two stretches of the highway which were included in the commission's promises—one through the Altamont pass and the other from Warm Springs southward—remain unfinished at this late date.

The delay has been shown to be due solely to the failure of the highway commission to furnish the material necessary for the construction work. Purchase and delivery of material is exclusively reserved to the commission and it alone is responsible for the efficient performance of this part of the work.

The officials of Alameda County have been more than reasonably patient with the commission's dilatoriness and, only at the end of two years, when the uncompleted sections of the highway are torn up and traffic on main arteries of the county blocked, have they been moved to protest. The sections of the roads above mentioned were closed for reconstruction upon orders from the commission and the latter is in duty bound to see to it that they are completed and opened to the traffic of the county before the winter rains come—at the earliest possible moment. Otherwise the State Highway Commission will be responsible for incalculable injury to the county.

CORN IS KING.

On the first of the month the federal government published its survey of the great corn crop of the United States. On September 1 a yield of 3,250,000,000 bushels was promised, which is 123,000,000 above the yield of any previous year. This, said the government's bulletin, will be realized fully in the form of sound corn only, provided frosts hold off unusually late, and a good big crop of sound corn is promised if killing frosts in the main corn belt do not come earlier than usual.

At this date it may be safely said that the government's prediction has been verified. Corn has never suffered heavy loss from frost, as a rule. According to the weather bureau records, killing frosts have never occurred earlier than September 10th in the Northwestern States and never earlier than October 1 south of northern Oklahoma and Arkansas, southern Tennessee and the mountain districts of North Carolina and Virginia. In the vast corn acreage of Texas, northern Louisiana, central Mississippi, Alabama, South Carolina and eastern North Carolina, killing frosts before October 20 are unknown. The average date of severe frosts in all these districts is much later than the respective dates given.

It is now September 19 and no killing frosts have been suffered in the Northwestern States. This indicates that corn will have at least a normally favorable season. America then can say with nearly absolute certainty that she will give the earth the most bountiful corn crop in history.

From earliest historic times corn has figured largely in the destinies of nations in periods of stress. In former epochs "corn" was used as a generic term in alluding to the general cereal supply, and it has remained largely for American production to give to corn individual significance in the world's food resources. Corn is a great peace crop and there is no reason why it should not become a vitally useful war food crop.

The government's report shows that the indicated yield for 1917 is due to the big acreage planted rather than exceptional promise of yield per acre. Therefore, these three and a quarter billion bushels show something of what man can do. Throughout the corn belts one may see terraced patches of corn on the mountain tops and waving acres on the plains and bottom lands. It has a wider range of production and greater adaptability to soil conditions than any other cereal.

With the comprehensive efforts to increase the popularity of corn products in the American food diet and under the necessity of relying upon it for sustenance in some of the belligerent countries of Europe, corn is in a fair way to exact universal recognition of its kingship. The hundreds of cook books on the preparation of corn for the table, the efforts of the federal food administration to introduce it into a larger portion of American homes and the short flour ration are all influences for the prosperity of corn.

NOTES and COMMENT

The disorders and interruption to street car service in San Francisco promise to create a new class of magnates—the jitney proprietors. They are reveling in prosperity. The man with a car that will go reasonably well is finding his opportunity.

The Governor is praying that the cup shall pass from him, meaning that he hopes the present strike era will not result in a call for troops. The probabilities seem fairly good for that outcome, however.

The lists of marriage licenses, away above normal since the draft law went into force, show no sign of abating. Whether this is due to a desire to hide behind skirts, or whatever accounts for the quickening, the fact is patent that there is more marrying just at this time than has been known for years.

The government is to protect soldiers from debt harassments. While they are away on the firing line advantage cannot be taken by creditor patriots at home who may have something on them in the way of a monetary obligation. Which is entirely just.

The Los Banos Enterprise warns everybody about sheets: "The length of sheets must be 98 inches. This is a correction of a former notice, which stated that they should be 90 inches. The proprietors of hotels, rooming-houses, saloons, restaurants and soda fountains should see that the Board of Health rules are lived up to, as the places are liable to inspection any day."

It was expected that Edison would be able to devise a way to circumvent the submarine. It may not totally solve the great problem, but it is reported to have gone a great way in that direction.

One great problem is what to do with or to reckless autoists, and how to guard innocent persons who have a real right to live against their criminal carelessness.

The report of a German U-boat off the Atlantic coast seems to have been a variant of the frequent story of the sea serpent, though, if anything, it was less probable and should have received less credence.

From an account of an Oregon wedding: "The bridegroom's present to the bride was a handsome diamond brooch, together with many other beautiful things in cut glass."

Emergency advice from the Redding Courier-Free Press: "If you object to sauerkraut and other dishes because of their German origin, about the best thing to do is to intern them."

Figures in connection with the strike are varying and must be largely approximate. We are informed that the men that are out number 20,000 to 35,000, and that the amount of work tied up amounts anywhere from one hundred to one hundred and fifty millions. While figures may not be exact, they convince the average man who wants to see things move normally that they are big and serious enough.

There is a short disquisition afloat headed, "Don't Lie to Children." The points would be fully covered if "to children" were omitted.

The Stockton Independent notes a fact, but apparently is not favorably impressed: "Another commission has been added to the many that crawl over the surface of the body politic in California and suck and suck and suck. This time it is a commission of three members to investigate and determine the date on which gold was discovered in California by Marshall."

SPIRIT OF THE STATE PRESS

The Ukiah cannery of the Lake County Canning Company is in urgent need of more women to snap beans. When the season opened 1917 had signed the list promising help with the beans, but up to this time a large number have not shown up. The cannery has raised the price to 17½ cents a box from the former price of 15 cents. More pickers at the ranch in Lake County are also wanted. The cannery has lately received an additional order from the United States government for 21,000 cases, which, with the former government and private orders, makes a total of over 50,000 cases.—Ukiah Despatch-Democrat.

It is to be hoped that instead of granting the permission sought by the Napa Valley Electric Company, the Railroad Commission will order the gas service in St. Helena improved. With good gas and better service there is little doubt but that the company would be able to build its patronage up to a profitable point instead of seeing it constantly decrease as under present conditions. St. Helena has had gas for nearly forty years and it would be a shame to permit the discontinuance of its manufacture.—St. Helena Star.

Shoes are to cost no more this year than they did last. This is the word of F. A. Sloane, field secretary for the National Shoe Retailers' Association. Mr. Sloane says many retail shoe men have overstocked. And contrary to general opinion, there is no shortage of leather. Shoe prices are not to be advanced by wholesalers to the retail trade. And some new substitutes are proving better than leather. There is a new sole being turned out, for example, which seems so far to be better than leather and one concern is making something like 250,000 pairs of these soles a day.—Santa Rosa Press Democrat.

GOLD AND PURPLE.

These Berkeley nights! What memories! Will I in recollection hold Of their incoming argosies! Over broad seas of fretted gold!—Claudius Thayer. Oakland, September 18.

BREAK THE CHAINS!

CAMELS IN WASHINGTON

Camels and wild horses once roamed the county which centuries after became the state of Washington.

Remains of these extinct animals, with those of the ground sloth, have been discovered along the white bluffs of the Columbia river in the southern part of the state by Professor John C. Merriam and Dr. John P. Buwalda of the University of California, says the Spokane Chronicle.

The white bluffs along the Columbia have long been regarded by most geologists as of the same period as the Ellensburg formation, which is Miocene or early Pliocene in age. Professor Merriam and Dr. Buwalda made a collecting expedition along the Columbia last summer, in the neighborhood of Ellensburg and Ringold, which proved the region later in origin for they unearthed fossil remains of horses much further along in the course of evolution than the fossil horses found in the Ellensburg formation.

They found also fossil remains of camels, deer, rabbits, fish, tortoises and ground sloths. From this evidence they have shown that the formation in the white bluffs, exposed by the Columbia, for a thickness of more than 500 feet, belong to a later stage in the world's history than the Ellensburg formation. They have given it the name of the "Ringold formation."

The University of California is undertaking further exploration of the Ringold formation. This occupies an area of several hundred square miles, from the lower slopes of the Saddle mountains to several miles east of the Columbia, and to the base of the Yakima range.

THE TURKISH NAVY.

An important bit of news, if true, appears in the cable despatch announcing the withdrawal of Admiral Suchon and his German colleagues from control of the Turkish navy and their replacement by Turks. This would practically mean that the Ottoman government has been able to break loose from its alliance with the Central powers. It was through the Goeben, although she flew the Crescent flag, that Suchon in 1914 bullied the Young Turks into war. Here were the only large calibre guns admirably served by German sailors, in the vicinity of the Golden Horn. Every building in Pera and Stamboul lay at their mercy. The sultan's masters were given the choice of seeing the capital laid in ruins or joining the Central powers. The same situation must still exist in Constantinople. The Goeben, with her German crew and officers, still lay, until quite recently, in the straits, within gun range of the city. Unless the Germans are mad or anxious to get rid of their Turkish ally and have the Dardanelles opened to the Russians, they will not now recklessly throw away their key to Constantinople. Admiral Suchon, who is an elderly gentleman, with a passion for collecting Oriental curios, may have retired. But some other capable German officer will be found in his place, holding down the Turkish lid.—New York Evening Post.

FAREWELL OF THE BIRDS.

September tends its flocks. No, not sheep, but birds. It gives them the impulse to move southward to the land of safety and plenty, and it offers them mild but adequate protection while on their way.

It is in September that one finds summer and autumn as field companions. August flowers still give color to the meadows and roadsides, while with them in a rivalry that is all unselfish are the flowers that are autumn's own.

Through September nights the birds in great flocks move southward. The day of the singing of birds has gone except for the song sparrow and one or two other species which cannot check their tuneful desires, no matter what the season. No song comes down through the night from the passing multitudes, but they drop their chirps and their chink-chinks through the still hours in a sort of an unmelodious but sincere farewell to the land that has kept them in safety and in plenty through the golden season.—Chicago Evening Post.

TODAY 20 YEARS AGO

Melville Dozier was elected president and track captain of the University of California Athletic Association.

Mrs. Edward Von Adelung gave a lunch in honor of Miss Mary McLean, who returned from Europe.

The bakers of this city met to consider the proposition of raising the price of bread. "We want to fix on a pound loaf at 5 cents as the standard," said G. Becker of the California bakery. "Even that leaves us a very small margin."

Mr. and Mrs. Harry Rattenberry, assisted by their daughter, Miss Alice, gave a musicale at their home in East Oakland.

Congressman Hilborn reached Sulsum, where he spent a few days with relatives, before coming on to Oakland from Seattle.

ALWAYS A POSSIBILITY.

"I was a young man again," said a mechanic in middle life. "I would go to the farm and become independent, and nothing could hold me." Is every young man sure he won't be saying the same thing some day?—St. Paul Pioneer Press.

THE JESTER

The Howler.

Mrs. Exe.—They sometimes call vocal lessons "voice placing." Exe.—That so? Well, I wish you'd ask that girl downstairs to please place her voice across the street instead of in our air shaft.—Exchange.

Speculates On It.

"Are you a food speculator?" "Whenever a plate of hash is placed before me."—Boston Transcript.

High Visibility.

"Officer," said a lady much above the usual avoiddups, "could you see me across the street?" "Madam, I could see you half a block!"—Judge.

To The Funeral Baked Meats.

"Dine with me tomorrow at the Mire, can't you?" "Sorry, old man—but I really can't go tomorrow. I'm going to see Hamlet." "Oh, bring him along with you as well."—Cassell's Saturday Journal.

LAND TITLE MEN RALLY TOMORROW

The eleventh annual convention of the California Land Title Association opens at the Hotel Oakland tomorrow morning with several hundred representatives of firms, corporations and private interests engaged in the abstract or land title business in different parts of the State in attendance. The sessions will begin promptly at 10 o'clock and last for two days.

The program of the opening day includes the annual address by N. W. Thompson of Los Angeles, president of the association; report of delegates to the national convention; reports on membership and the financial condition of the organization; and other routine matters. The principal speakers of the opening session will be James N. Watson of Fairfield, C. B. Harrell of Merced, W. T. Baldwin of Oroville, George A. Clough of San Francisco, R. F. Chilcote of Redwood City and John P. Tracy of Eureka.

On Friday officers will be elected, toastmaster.

OF COURSE, AUTO MUST HIT MAN OF THIS NAME

CHICAGO, Sept. 19.—A Ford car was run over by an auto early today. A policeman picked him up.

"Any damage?" he asked.

"Nothing but a busted lamp, I guess," replied Carr, rubbing a bruised eye.

Carr is a dentist.

WILL TRY NEGROES

EL PASO, Sept. 19.—It was announced from military headquarters here today that the court martial of 150 negroes, members of the Twenty-fourth U. S. Infantry, charged with "shooting up" the city of Houston, Tex., will begin at Fort Bliss, Thursday.

The next meeting place selected, and there will be addresses by various members and delegates. During the convention an open forum will be conducted for the discussion of such subjects as may come before the members for consideration. Many of the problems which have arisen as a result of legislation at Sacramento will be discussed in this forum.

The annual banquet of the organization will take place Friday night, at which time the convention delegates will be the guests of the Alameda County Title Company and the Oakland Title Insurance and Guarantee Company. Ira Abraham, at present first vice-president, will act as toastmaster.

CITIES WILL FIGHT RATES SEPARATELY

East bay municipalities concerned in the fight against the proposed increase in ferry rate schedules will separately prepare their cases in opposition for the hearing to be held before the State Railroad Commission next month.

This was decided upon at a conference between the city attorneys of Oakland, Berkeley and Alameda. Those at the conference were City Attorney Frank D. Stingham of Berkeley, City Attorney A. E. St. Sure of Alameda and Deputy City Attorney William H. O'Brien of Oakland.

The council will be asked to have an engineer detailed to assist in preparing data.

So far as the question of Oakland employing expert counsel, the matter rests with the commissioners. City Attorney Mori has informally recommended Attorney H. H. Sanborn, former rate expert for the railroad commission.

GENERAL MAKES NEW GUARDHOUSE HIS QUARTERS

CAMP LEWIS, Tacoma, Wash., Sept. 19.—The first occupant of the guardhouse, built to securely contain any soldier who shall violate the rules of the camp or the articles of war, is an officer of high rank—none other than Brigadier-General Edward Burr, commanding the 166th brigade of field artillery.

It should be hurriedly stated, however, that General Burr's incarceration is entirely voluntary.

When assignments of quarters for brigade and regimental officers were made, it was found there would not be enough room to go around. Brigadier-General Burr then suggested that until brigade headquarters building was finished, he would make himself comfortable as the first tenant of the soldiers' jail.

COMMISSION SHIFT SOON: EDWARDS

"The removal of one of the commissioners from the department he handles at present to some other department, by a majority vote of the council, may be necessary very soon," Commissioner W. H. Edwards announced last night at a meeting at the Clawson school, held under the auspices of the Clawson School Improvement Club.

Mayor John L. Davis was the other speaker of the evening, and H. N. Herby presided.

Edwards did not state which of the commissioners was to be transferred, but it was understood that he referred directly to the plan to oust Commissioner F. F. Jackson from the control of the department of public health and safety to some other commission.

MAY EXERCISE POWER

"It is a most wise provision of the council which gives three members of the city council the power to make such a transfer," Edwards continued. "It may be necessary to exercise that power soon."

"And I want to tell you that there are some things in the council not dictated to by any boss and that they are ready to obey their own consciences. They are fearless in the defense of the people."

"You may have heard of the George Kaufman false economy budget. Well, let me tell you about that. I have not all the clerical help I need in my office. Once a year this budget work comes and I have to go over all these figures and estimates and get out my recommendations in a month. In that period of extra work I use all the expert help I can get."

"I use the civil service board's experts. The civil service board is one of the greatest protections created by the city charter for the benefit of the people."

DEFENDS CONTINGENCY FUND.

"So when I needed help I was mighty glad to accept the service of Mr. Kaufman, one of the most expert among accountants and efficiency men in the United States."

Edwards made a defense of the \$72,000 contingency fund. He said: "You've heard a lot about this \$72,000 contingency fund. That may seem a lot of money unassigned to any department."

"But it is unwise to have any commissioner have too much power. If you assign \$100,000 to a commissioner's department he's likely to spend it whether he can run his department on \$75,000 or not."

"So we put this money into the contingency fund, and if any commissioner needs more money, and can show us, we'll produce the coin. This is where we can get it. But he has got to show us."

DAVID RENEWS ATTACK

Mayor David renewed his attack upon the corporations and the holders of leases along the Oakland estuary, blaming the corporations for

(Continued on Page 15, Col. 3)

PLANS SERIES

The Venetians, a local social organization, will open its regular winter series of entertainments at the Pacific building, Sixteenth and Jefferson streets, on the evening of Friday, October 5. Feature dances and special events have been planned for that occasion. The committee in charge includes Barrett Bass, Linn Waltrich, George Enloe and Leslie Stier.

Distinctive and Individual Optical Service

When you visit any of our establishments you are immediately impressed with the good optical service rendered. Each individual's requirements are carefully analyzed by experienced men, so that you at once realize that our optical service is distinctive and superior—out of the ordinary—progressive. Our aim is to serve you at all times in such a satisfactory manner that you will be a life-long customer.

ARBITERS TO HEAR SIDE OF TRACTION CO.

With the conclusion of testimony relative to the increased cost of living as affecting the conditions of the traction company platform men; the representatives of the Carmen's Union last night rested their case before the board of arbitration and the company representatives outlined the points of contention for the other side.

Two principal points were raised: "What is the economic maximum that the company can afford to pay?" "What is the social minimum that the men can afford to work for?"

There were three rights to be considered, said the company, these being designated as:

1. The right of the public to receive adequate service.
2. The right of the utility for fair remuneration on its investment.
3. The right of the employee for a fair living wage.

Regarding the wage conditions the company at the outset makes the claim that the platform men on the east bay lines are being paid higher salaries than in the majority of other cities of this class and under similar conditions that the cost of living here is no greater than elsewhere, and finally, that the company is unable to pay the interest on its investment at the present time and therefore cannot meet the demands of the current for higher wages.

Discussion over the economic principles involved in the premises ensued following the opening of the traction company's case. This feature of the hearing was in progress when the session was adjourned until tonight. The Carmen consumed eight meetings to put on their case and it is estimated that the company's side will occupy the greater portion of the next two weeks.

In the meantime the arbitration board has arranged for the evidence included in the testimony so far presented being charted under the direction of specialists at the University of California in order that the volume of material may be summarized with the least confusion. After both sides in the controversy have presented their case the board will take the matter under consideration. Just how long it will take to render a decision is presently unknown.

SUES FOR CHILD'S CARE

Charles F. Nightengale is suing to have his minor child placed in the care of an institution, alleging that his former wife, Ruth M. Nightengale, who recently received a final decree of divorce and the custody of the child, is not a fit person in whom such custody should repose.

HALT CONFERENCE

STOCKHOLM, Sept. 19.—On account of the prospect of change in the administration of Sweden the contemplated meeting of Scandinavian ministers at Copenhagen probably will be postponed until the late autumn.

The plans for a projected conference of neutral states generally, for which the Swedish government some time ago opened overtures, also are suffering, because of the uncertainty regarding the Swedish cabinet's tenure of office.

AID IS NAME

WASHINGTON, Sept. 19.—Major Clarence Ridley of the engineer corps will be the new military aid to President Wilson, it became known today when he was received by the president at the White House. Major Ridley is the successor to Colonel W. H. Hartz as superintendent of buildings and grounds, by virtue of which he becomes military aid. Colonel Hartz has been assigned to field service. Major Ridley was born in Indiana June 22, 1883.

TAFT & PENNOYER COMPANY

Sample Sale of Silk Lingerie

Very Important Values!

—We have had the good fortune to secure a manufacturer's samples and surplus stock of silk lingerie—in all about 300 pieces—which will go on sale Thursday for the first time, specially priced. Made of extra heavy quality silks, and cut on full lines. Trimmed with lace, ribbon, medallions, embroidery and hemstitching—others are in plain tailored effects.

ENVELOPE CHEMISE—in flesh only—
\$1.95, \$2.50, \$2.95, \$3.25, \$3.45

CAMISOLES—in flesh only—
95c, \$1.45, \$1.75, \$1.95, \$2.95, \$3.45

COMBINATIONS—in white only—Special—\$4.95

Silk Underwear Section—Second Floor.

Feature Values in New Suits \$29.50

Serges, Gabardines, Wool Velours
Oxfords, Burallas, and Broadcloths

—Many different models—one as pleasing as the other.

—Coats plaited, belted and trimmed in various attractive ways with buckles.

—New submarine, convertible and sailor collars.

—Skirts are flared, gathered back and belted models in different styles.

—Navy, black and wanted colors.

—Each suit man-tailored.

—These are the newest and most exclusive Autumn models and are very attractively priced.

Suit Section—Second Floor.

Chiffon Velvet in Evening Shades At \$6.00 Yd.

See the Special Window Display

—We call attention to the chiffon velvets for evening wraps, etc., now on display in one of our Clay-street windows.

—These goods are considered the proper thing this season and by reason of the great demand and the scarcity of the grade of raw silk from which they are made the supply is limited, and we would recommend an early selection as we can scarcely hope to duplicate shades once they are sold out.

—This line is of superior finish with a high luster, is 42 inches wide and at the price quoted above is an excellent value. The shades are: Coral pink, apricot, orchid, pale blue, turquoise blue, old gold, old rose. We also have in stock all the popular street shades and black of the same grade.

Velvet Section—Main Floor.

Special Sale of Ladies' Shoes At \$5.00 Pr.

—Critical eyes will fall in love with this remarkable opportunity to select Women's Patent Dress Shoes and save dollars! dollars! dollars!

—Sorting out the stocks to make room for the proper display of our magnificent showing of Novelty Boots, we find about 300 pairs of Women's Dress Button Boots—all hand-made with Military and French-Cuban heels—plain toes and tips; kid and cloth tops. We are marking them at \$5 for this week. These are late styles and offer wonderful money-saving opportunities to you now.

—The same high-grade fitting service with these shoes as is our regular custom.

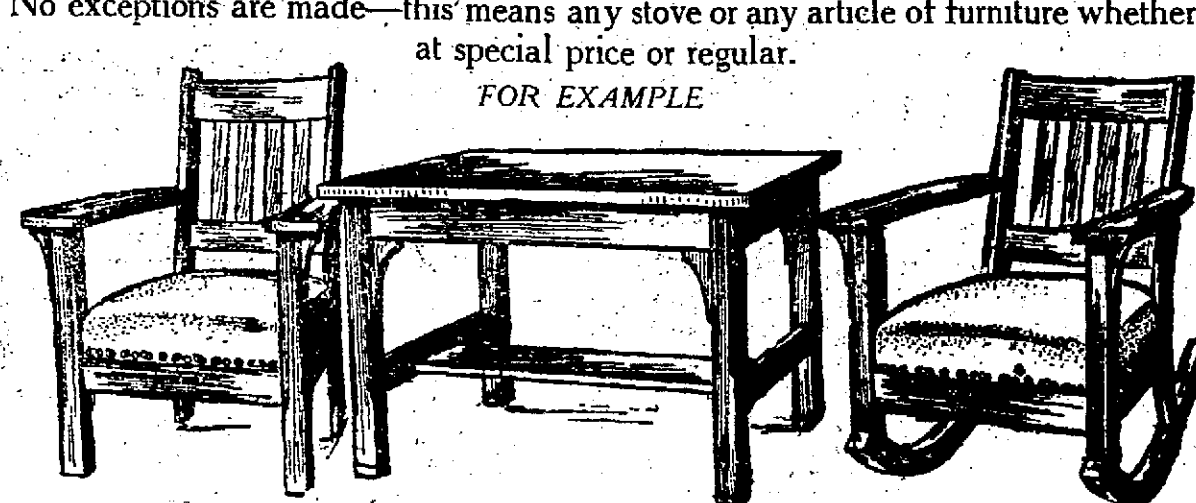

Thursday at Breuner's Sept. 20th at Breuner's

LACE CURTAINS \$1.00 PAIR
Seven excellent patterns of Nottingham Lace Curtains in a very serviceable weave, 2 1/2 yards in length, 36 inches wide, ecru and white.

DOLLAR DAY SPECIAL

FEATHER PILLOWS \$1.00

A plump, well-filled Feather Pillow, made specially for Breuner's. Put up in an art tick, measuring 20x26 inches.

There is no reason in the world why we should cut the price of these Pillows, only that we are determined to give startling values for Dollar Day.

12-ft. LINOLEUM \$1.00 Per Sq. Yd.

This Linoleum comes twelve feet wide and will cover most kitchens with a single piece without a seam. It is made of pure ground cork and linseed oil. The patterns are simply splendid and there is a wide assortment. This price does not include laying.

ON DOLLAR DAY
We will deliver Linoleum to cover the largest of kitchens on a down payment of only \$1.00. For the balance pay \$1.00 weekly.

Breuner's
Clay Street at 15th Street

FOOD PRICE PARALLEL IS AGONIZING

If you don't believe the constant assertion that it was possible to live as comfortably on \$12 a week twenty years ago as it is on \$25 and \$30 today scan the following list, in which retail prices of the two periods for staple foodstuffs in Oakland are compared. With the price now charged for a barrel of flour—\$12—the householder of twenty years ago could buy the same quantity of flour for \$5 and have enough left out of the \$12 to stock his larder with provisions to last his family a week.

Retail prices of twenty years ago used for comparison are quoted from a retail grocer's list published in The Tribune of that time. Corresponding retail quotations of the present day were furnished by the Alameda County Retail Grocers' and Merchants' Association.

Here's the list—enough to make the average harassed householder wish he could chop twenty years off his life, just to be able to buy ham at 11 cents a pound and eggs at 25 cents a dozen:

20 years ago.	Today.
13 lbs. best sugar, \$1.00	12 lbs. \$1.
1 doz. fresh eggs, 25c	55c to 60c
Best flour, barrel, \$5.00	\$12
Best East. ham, lb. 11c	45c
Gal. can maple syrup, 75c	\$1.15
Best grade tea, lb. 20c	50c to 60c
Best coffee, lb. 15c	25c to 30c
Best creamery butter, square, 40c	55c
3 cans new green peas, 25c	2 for 25c
20-lb. box raisins, 90c	\$2.50 to \$3
15 bars soap, 25c	4 for 25c
10 lbs. eastern corn meal, 20c	80c to 85c

Give The Stomach A Chance To Work

We can't expect the stomach to act normally if the natural avenues of elimination are blocked so it cannot dispose of its waste. When the bowels are constipated the stomach is called upon for work beyond its capacity and the result is bloating, headache, and discomfort generally and the condition is promptly relieved, serious illness.

An effective remedy for constipation is sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. It is a combination of simple laxative herbs with pepsin that acts on the bowels in a gentle, natural manner, without griping or other pain or discomfort, according to the directions. Get a bottle of Dr. Caldwell's Syrup Pepsin from your druggist and have it in the house when you need it; it costs only 15c and is the ideal family remedy, mild enough for children and old people, yet sufficiently powerful for the strongest.

Dr. Caldwell, 450 Washington St., Monticello, Illinois.

New Army Men Take Tests Start Guard at Camp Lewis

By O. M. Tupper Jr.

CAMP LEWIS, Sept. 19.—Physical examinations of the men at Camp Lewis will soon be conducted at the rate of 1000 a day. Captain H. B. Reynolds has charge of these examinations and has twenty examining physicians with him. This force will be greatly increased to deal with the increasing number of men who will undergo physical tests. A commission will be appointed at this camp to pass upon the men of the national army who have been rejected by the examining physicians. Many of these men who have been turned down are sound physically but have some minor defect which incapacitates them for military service.

It is found that a man has been rejected because of a stiff trigger finger, it may be possible to use him in some other branch of the service, such as a mechanic or a clerk," said Captain Reynolds. Up to yesterday afternoon 1800 men of the first quota had been given their physical examination. One of these is Albert Toon, 6 feet 4 inches in height, and said to be the tallest man in the national army. Toon, who is in the 363d Infantry and holds from San Francisco, where he worked in the Golden Gate Iron Works, explained his height by remarking in his thick Tennessee dialect that "Cawn pone done it."

PLAID SERVICES.
Dedication services for building No. 1 of the Army Young Men's Christian Association at Camp Lewis were held last evening. The building and its maintenance were made possible through the generosity of the sons and daughters of the late Frederick Overhauser.

As indicating the enormous quantities of food which will be consumed at Camp Lewis, 76,000 pounds of bread, the equivalent of 540 sacks of wheat, is the capacity of army bakeries established here, which will be in operation after the arrival of the 13,000 drafted camp guard week.

New men at camp will be given their first experience at guard duty this week, as orders have been given to commanders of the 181st and 152d brigades to relieve the four coast artillery companies that have been on guard for several months. The new guards will have to walk their beats without guns until their equipment arrives.

Orders to increase the size of the cantonment are expected from the War Department. The elimination of the double deck bunk for sanitary reasons has decreased the capacity of the cantonment from 46,000 to 37,000 men.

TO "BUST" HORSES.
Broncho busting began this week for more than one thousand horses that have arrived for artillery officers' remounts. They will break ten thousand horses and mules in all. Construction of a series of "bull pens" for the remounting of the breaking of wild horses was ordered yesterday. These pens will be thirty feet in diameter with fences set at an angle so as to avoid injury to the riders. Many of the horses coming from Montana have never had a rope on them.

Captain Alfred B. Lewis of the 316th Engineers has been ordered to report for duty to the commanding officer at Rockford, Ill.

SEEK NEW SITE FOR GUN SCHOOL

WASHINGTON, Sept. 19.—A new site in the south for an additional infantry and machine gun firing school where adequate ranges can be laid out for rifle and machine gun practice work is being sought by the war department. Boards of officers are looking over various sites in Texas and elsewhere, but no recommendations have yet been made.

The new range will require between fifteen and twenty square miles of uncultivated country broken into levels and also into hills so that the battle conditions of all kinds can be produced. The site will be either leased or bought.

NEW MEN COME

CAMP FUNSTON, Junction City, Kan., Sept. 19.—Twenty-seven hundred men, the first contingent of the National Army are arriving today at Camp Funston from Missouri, Kansas, Nebraska, Colorado and New Mexico. The new arrivals, like the first contingent now in the camp, will be equipped with overalls pending the arrival of uniforms.

ARMY MAN IS SAFE

PETALUMA, Sept. 19.—Herman Heriensen of this city, who joined the United States engineers and recently left for England, has written local relatives of his safe arrival at Liverpool. The transport on which the boys made the trip passed through the danger zone in safety. They were equipped with lifeboats and ready for an attack, but failed to meet a submarine.

PRaises SYSTEM

CAMP LEWIS, Tacoma, Wash., Sept. 19.—"A better class of men has been secured through the draft system, in my opinion, than is possible through the voluntary system," was the verdict today of Captain J. R. Montgomery after a week in command of a company of Montana and Utah men.

CAMP LEWIS WAITS NEW MEN

By O. M. Tupper, Jr.

CAMP LEWIS, Sept. 19.—Camp Lewis is ready to receive the 13,000 troops who begin reporting at the cantonment today and will continue arriving here at the rate of 3500 daily from Alaska, Washington, Oregon, California, Idaho, Montana, Utah, Nevada and Wyoming until September 26. When this second contingent is at the camp there will be more than 20,000 men learning the business of fighting. When these troops have all arrived California will lead in the number of men in camp with 10,376, half of whom come from the western part of the State and half from the southern States. Detailed plans have been worked out for receiving these troops from the time they leave the receiving station until they are quartered in their barracks and equipment is issued to them. It is expected that the handling of the troops will proceed without a hitch. The second 40 per cent quota of the national army will arrive early in October and the entire 46,000 will be in camp by the last of next month.

WAIT NEW MEN.

Oakland men in camp are eagerly anticipating the arrival of the second quota from their home city. The east bay representatives in the new army are giving a good account of themselves and will be able to give some pointers to the new arrivals.

Music brightens up life in all company barracks last night. An anonymous benefactor donated to each company a phonograph and a score of records and they have already been put to good use. Everyone wanted to know who the "unknown lady" was so he could thank her.

Many of the officers and men are sorrowing over the drowning in American Lake yesterday of the 3-year-old daughter of Lieutenant F. G. Green, stationed at Camp Lewis. The tragedy occurred on the south side beach, about one-half mile north of the Country Club. The Tacoma police pulmotor was called for and was rushed out to the lake in charge of Police Captain Charles Falconer and Officers Rivas and Ziegenfuss, and Lieutenant Lehman of the Medical Corps at the camp also was summoned. All efforts to revive the child were unavailing.

CHILD HAD STRAYED.
Both Lieutenant and Mrs. Green were too hysterical to talk of the affair, the police say, other than that Mrs. Green said the baby was not out of sight five minutes, and when found was lying in the water over her head, unconscious. The Greens occupy the A. H. Miller cottage at the Country Club.

COMMISSION TO SHIFT: EDWARDS

(Continued From Page 13)

their "control of the city" and the lease holders for "opposing the development of the western waterfront."

"The traction companies have always owned a majority of the city council until now," declared the mayor. "This is the first time in fifty years that there has been a majority of the city council not controlled by the public service corporations."

"Now we have three voters determined to make them pay their share. That's the reason for all this agitation against me."

"There's something radically wrong with the business end of Oakland. If there wasn't they would take advantage of the opportunities afforded by this Albers wharf in the Key Route basin to have Oakland made a port of call for the river boats."

The mayor ended the plan to lease a section of the Key Route basin waterfront to the Union Construction Company, saying:

"It is all nonsense for Oakland to talk about going into the dockage, warehouse, and freight terminal business. We have given away those privileges to the Southern Pacific, the Western Pacific, the Santa Fe and the San Francisco-Oakland Terminals."

"It is the ideal place for industrialists. That's the reason this lease ought to be favored."

"HARBOR" IS TOPIC

Bernard R. Maybeck, noted architect and city planner, is to deliver an address on Oakland's opportunities for harbor development at the Civic Auditorium Theater Saturday night, under the auspices of the Harbor Protective League.

GREAT SAVINGS IN FOOD PRICES WON

WASHINGTON, Sept. 19.—Approximately 75 per cent of the food supply of America today is under the control of the United States. More amazing is the fact that the control has been made voluntarily. Today the United States food administration by virtue of its power of licensing food industries, governs the prices in staple food products of the world.

The food administration has been in action but five weeks. Prior to that time it had no official capacity or power of action. In that five weeks it is estimated that close to \$100,000,000 has been saved for the householders of the United States.

The first big achievement of the food administration was the control of wheat prices. This came through voluntary agreement of elevator owners and millers. Elevators and milling plants are now subject to regulation. The price of wheat has been fixed and estimates today in the hands of food administration officials show that millions of dollars are being saved. Flour has dropped \$2 a barrel under these regulations. Sugar, another big food commodity, has gone under license. By virtue of a voluntary agreement, reinforced by an order of President Wilson, the sugar industry is now in the hands of the government. Sugar prices have dropped, and experts say will continue to drop until \$30,000,000 will be saved for consumers by January 1.

Merchant representatives are to be named for all states to assist in organizing retail merchants for work in co-operation with the food administration. The food administration has commissioned Effry Wolter, formerly head of the Minnesota State binder twine works, to investigate the sisal and hemp industry, with a view to action toward reducing prices. The price has risen 500 per cent since the war began.

Your Real "Liberty Loaf." The whole wheat contains every element needed for building healthy bodies and for furnishing energy for the day's work. When you eat wheat be sure you get the whole wheat in a digestible form. This will help the good work of conserving food—a real liberty loan to the Government. Shredded Wheat Biscuit is the real "Liberty bread." It is 100 per cent whole wheat, nothing wasted, nothing thrown away. Contains more body-building nutriment than meat. Delicious for any meal with milk, or cream. Made in Oakland, California.

They have given Bill Hart some task in "The Disciple," which is at the Kinema today and until Saturday, for they ask him to repress all of that fighting propensity, while he preaches to a lot of bandits and desert rats, and then when the provocation becomes too great he lets fly and the contrast is so great that it brings on a most unusual climax.

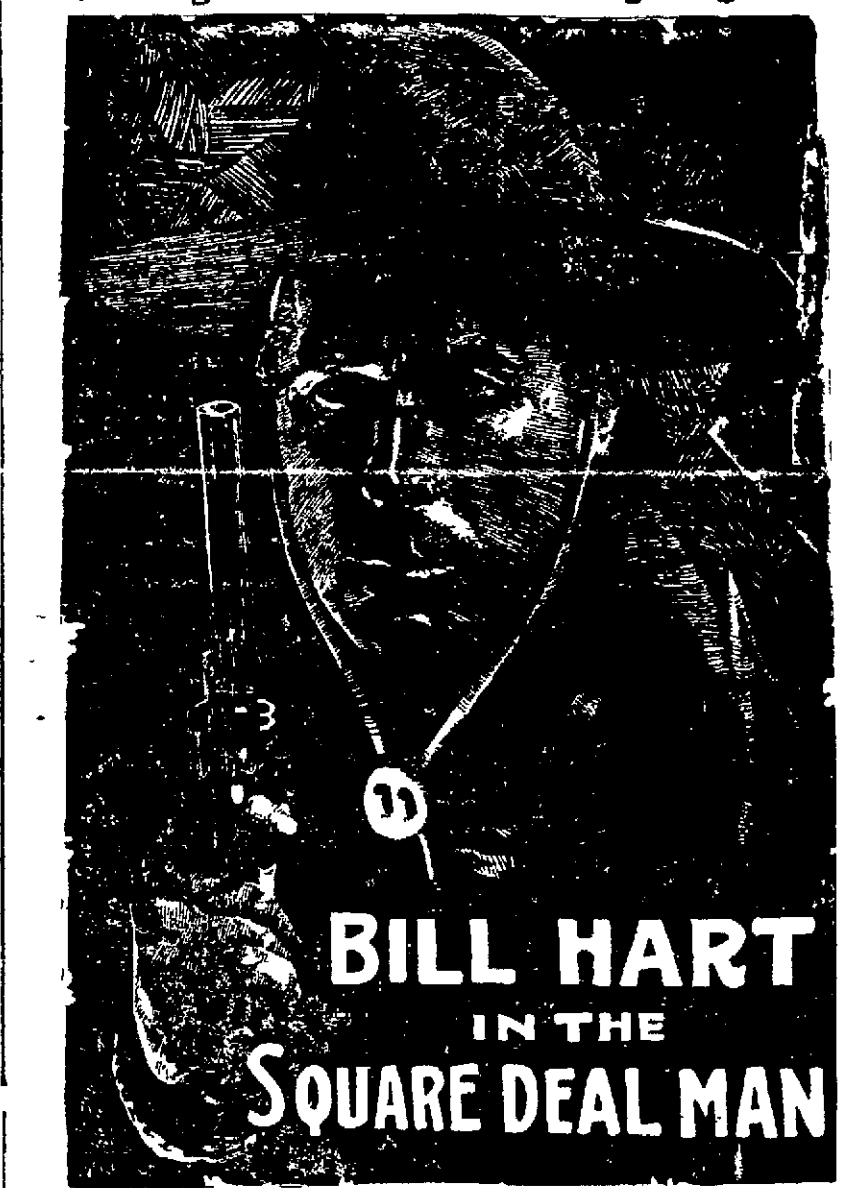

CARIBOU ON RIVER SWIM ABOUT VESSEL

DAWSON, Y. T., Sept. 19.—Surrounded by Alaskan caribou, the steamer Alaska arrived in Dawson yesterday from up the Yukon. A big herd of swimming caribou was encountered about a mile from Eagle City. The caribou was crossing the river in a great herd from a northerly to a southwesterly direction. Countless thousands have been crossing the river in the last ten days, one band alone numbering, it is estimated, 10,000. This band is expected to appear shortly at a point a short distance west of Dawson, between the headwaters of Forty Mile and Sixty Mile rivers. The slaughter of caribou for food and sport during their annual migrations has made the herds smaller than in early days.

SOLDIER HELD; FELONY CHARGE

After a chase through nine counties of the state, during the last three months, Walter Rogers, a private in the medical corps of the army, was arrested last night at 1843 Chestnut street on a felony charge preferred in Placer county. He was taken back to Auburn today by Sheriff George McAuley. Rogers is wanted as principal witness in the trial of Guy T. Williams which will commence at Auburn next week. Williams is charged with having "high-graded" \$3,000 at the mill of the Excelsior Gold Mining Company at Forest Hill while he was employed as millman. Rogers is his brother-in-law. Williams was released on \$10,000 bail.

Bill Hart's Patience as Sky Pilot Lasts Only So Long and Then He Turns Fighting Demon

Big Bill Shows all His True Fighting Form in "The Disciple" at the Kinema Today and Until Saturday.

They have given Bill Hart some task in "The Disciple," which is at the Kinema today and until Saturday, for they ask him to repress all of that fighting propensity, while he preaches to a lot of bandits and desert rats, and then when the provocation becomes too great he lets fly and the contrast is so great that it brings on a most unusual climax.

OAKLAND DAY MONDAY AT SHIP SCHOOL

Next Monday has been designated as "Oakland Day" at the United States Shipping Board's free navigation school, which is now holding daily sessions on the second floor of the Ferry Building.

On that day, Earlham P. Griffiths, the board's recruiting chief for California, expects no less than ten Oakland seamen to enroll in the school for the six weeks' course in navigation that will fit them for deck officerships in the new merchant marine.

Oakland's fame as an important seaport has become nation wide in late years. Seamen by the score claim this city as their home port. Quite a few of them have already enrolled in the free navigation school.

Chief Griffiths is not yet satisfied with the enrollment from Oakland and he is sending out a special invitation to Oakland tars to enter in next Monday's class. Other mariners residing in Alameda county outside of Oakland are also urged to join the class on this day.

"The ordinary seaman has never had a chance to advance himself as speedily as he has now," said Griffiths today. "The government needs more officers badly. When our hungry, blue-sea-going freighters are completed, we must have officers to man them. Otherwise they will be useless to us."

"We need seamen and we need them now. The sooner we get them trained the better off the government will be and the larger factor the merchant marine will be in winning the war."

"I appeal to Oakland seamen, who have had a minimum of two years' deck experience on ocean going vessels to enroll in the school for the six weeks' course without delay. In three or four months the men completing the comparatively easy course in navigation will be treading the decks of ships of their own command."

"Able seamen, contemplating entering the free navigation school across the bay on Oakland day (Monday) are urged to call on Captain James Guthrie, fifth floor, San Francisco custom house, without delay."

FREIGHT IS TOPIC

William Merriman, Southern Pacific freight agent in this city, will be the guest of honor at a meeting of the Home Industry League of California in the Palace Hotel, San Francisco, at 12:15 o'clock tomorrow. He will speak on "Correct Description, Marking and Packing of Property Tendered Carriers for Transportation and a Mutual Benefit to be Derived" on which subject he recently addressed members of the Manufacturers' Committee of the Oakland Chamber of Commerce. The same manufacturers have been asked by the League to invite their shipping clerks to hear what Merriman has to say.

Former State Senator Milton M. Schmitt will also address the meeting, his subject being "Opportunity in France for California Goods."

MALICE CHARGED

False and malicious arrest and imprisonment in the city jail is alleged in suits for damages in the sum of \$5000 each filed today by Paula G. Anderson and Carl E. Anderson against Howard Nothken, all residents of Oakland. The defendant, according to the complaints, caused the arrest and imprisonment of the plaintiffs on a false charge of threat to murder. The charge against them was dismissed at the preliminary hearing.

TAKES IODINE, GAS, SHEEP DIP; AND STILL LIVES

Having, according to the diagnosis, taken gas, iodine and sheep dip with suicidal intent, Mrs. E. McMillan, 4275 Albert street, was treated successfully at the Receiving hospital last night. It is said that the attempt at self-destruction was the second within a week, Mrs. McMillan, a young wife and mother, being dependent because of sickness.

DOLLAR DAY TO DRAG OUT HIDDEN COIN

"There was an old soldier. And he had a wooden leg. And he never had tobacco. Nor tobacco could he beg."

So runs the old song—and it tells of the other old soldier who haved up and always had it—who said:

"Save up your nickels and your pennies and your rocks and your tobacco in the old tobacco box."

And the second old soldier is like Oakland.

Oakland has been saving up nickels and pennies and rocks and your tobacco for tomorrow.

For when the day dawns tomorrow one dollar, plunk, simoleon, fish, iron man, one cartwheel, as you will, is to be bigger than the face of the clock on the city hall tower.

It's going to be spread out and stretched and expanded, just like Herb Brooks, the magician, stretches and expands his "Growing Coin" on the stage.

But in this case it's not magic. It's just "Dollar Day."

Once a year the merchants of Oakland get together and talk about how good business has been.

"We ought to do something to show our gratitude," they say. "Business has been perfectly grand."

"Swell!" says another merchant. "Just slugacious!" says another.

And then they say—all together, fortissimo:

"We'll hold Dollar Day and show the people we appreciate it."

And that's why tomorrow there will be the biggest bargains in Oakland stores that have ever been offered.

"Every Oakland merchant will offer a series of special 'Dollar Day' bargains." Something for a dollar that will be worth anywhere up to \$5. There may be a bargain in sugar in one store, in hats in another; maybe a bargain in new monkey-wrenches, or singhams or in garden hose, or the kind you buy for your wife's birthday.

Anyhow, a dollar will do the work of many tomorrow. Tomorrow everything sold for a dollar will be worth more than a dollar that is listed in the special announcements of Dollar Day Bargain Sales. There are many of these in The TRIBUNE.

DRAFT BOARD DELAYS ARE PROTESTED

Considerably incensed because Oakland draft boards were sending only fifty per cent of their required quotas to Camp Lewis today, Adjutant General J. J. Borree last night telegraphed to the chairmen of Districts Nos. 1, 2, 3 and 4, asking for an immediate explanation.

In reply, each chairman telegraphed that the blame lay entirely with the District Board which had neglected—though constantly importuned—to certify back names of drafted men.

Dr. E. A. Majors, chairman of Local Board No. 4, telegraphed as follows: "In view of the fact that the District Board does not certify back to this board promptly, we are short our quota. The District Board is exempting all married men, no matter what their financial condition. Even men married since the war began are being exempted. Are we to draft none but single men? If so, is not this a class war?"

Signed: E. A. MAJORS. District Board No. 4, telegraphed back that they had certified the District Board one hundred and fifty-one names, but had received back only 60 certifications. Other boards telegraphed to the same effect.

A member of Local Board No. 1, which was able to send only 21 men, though their quota was 75, made a trip to San Francisco yesterday and was informed that they had forgotten all about him.

District No. 1 is the first of the three draft boards who will send their 40 per cent quotas next Sunday, to receive a new certified list from the district board. The following 41 men will be included in the quota of 80:

Herman O. Tannenber, Emil Michel, Ronald S. Loring, P. Lovian, Peter Bomben, Henry Camara, Harold A. Davis, Oscar A. Mason, James Buntain, Grover Clinton, Clinton G. Peterson, Willard H.erry, Edward Nelson, William Andrews, Arthur J. Henas, Edwin G. Gustafson, Charles A. Brown, L. Davis, Wells Robert, Mulholland, Walter S. Kerr Jr., Henry A. Lawrence, Salvador C. Corosio, Leo E. Haunton, J. L. Garrison, Geo. P. Conrad, Joseph Vieira, Wm. P. Peterson, Louis Silva, Godfried Schumacher, Jos. A. Leitch, Albert R. Gallagher, George Madden, Louis Fernandes, Albert Sinclair, Hector Brazil, Charles A. Johnson, Herbert Nelson, Jesse Goularte, Frederick F. Dixon, Frank J. Bucher.

CLEAR UP WORK. Division No. 5 has the honor of being the first draft board in Oakland to clean up all clerical work in connection with the first draft call. In all 885 men were examined, and approximately 300 men have been certified to the district board as physically qualified for military service. The quota for this district is 233 men, and it is considered probable that this number will be secured without having to resort to another call.

The following men were yesterday certified to the district board as physically qualified for military service: Robert M. Leonard, Frank Jos. Carroll, Jos. A. Fiedler, Peter M. Pedersen, Harry C. McLaren, Louis Jasper Church, Manuel Cabral, Chas. H. Ostrander, Alfred A. Gropp, Hardy L. Cannon, Frank John Court, Manuel R. Mongardo Jr., Robt. C. Hepler, E. M. Shepherd, Chas. Regiller, H. H. Michaels, Sidney James, Chas. C. Behrens, Ernest Edw. Guido, Harold Elliott Dodge, Chas. Carl Mills, Jos. Hendricks, Henry Jos. Anderson, Geo. F. Peterson, Jas. Allen Smith, Otto Eugene Woessner, Alfred Francis Perry, Edwin C. Easton, Jesse J. Costa, Thos. J. Pate, Robert M. Smart, Lars E. Monsen, Alfred Von Newhall, Harry F. Arnew, Carl Robertson, Nathaniel B. Rockwell, Thos. R. Miller, Alonzo Colby, Henry F. Barrett, August F. Anderson, Archie E. Willard, Blaine D. Brainerd, Joe Madeglio, George Hammussen, Rudolph Lischer, Adolph P. Renner, Harmon Cernaky, Rudolph A. Ecker, Ernest B. Bewall, Ed-

Schnech, Bernard J. Lee, Oscar J. Vitt.

The following men called by local board No. 8 failed to report and submit for examination: Henry Casanova, Arthur R. Hutchinson, Leon Geo. Meyer, Howard H. Smith.

Joseph Mirabal, John F. Frettag, Antonio Fernandez, B. E. Hunter, Lee K. See, Edmund J. Costa. The reason Hutchinson did not report, it was found, is that he has already enlisted.

BOOKS FOR SOLDIERS TO BE OFFERED

"Books for the soldiers" This is the campaign cry of Red Cross and library workers in Oakland, Berkeley and Alameda, who are to raise \$10,000 for military libraries in 32 cantonments and several foreign concentration stations.

During the week of September 24-29, workers will utilize every means of communication to gain dollars from patriots "stay-at-homes," who wish the American soldier clean amusement and enjoyable recreation hours.

Publicity of every variety will be employed. The word of mouth method will vie with the car-poster and newspaper for successful subscription-hunting. Telephones—the endless chain—social calls—neighborhood visitations and every possible mode of telling the general public what may best be accomplished by the individual dollar will be utilized.

LIBRARY TO AID. This campaign, together with hundreds of others throughout the United States, will be supervised by the Red Cross and the congressional librarian in Washington, D. C. To this city will come Bert Wells of the national capital, who will tell campaign workers Friday night at Hotel Oakland just what is to be expected of them and of Alameda county.

According to Mrs. Dudley Kinsell, head of the Alameda county campaign, buildings, furnished through the Carnegie foundation, are in various construction stages in the 32 cantonments. That these buildings may be completed and their shelves present an empty appearance for a long interval is the fear expressed by head librarians throughout America.

It is their wish, as well as that of the War Department, heads, that every library building in this land and European training camps shall be filled with good books of every description. The librarians of America are preparing to take over the extra burden. Men of the profession will be appointed to cantonment libraries, where they will take over an extraordinary work—that of keeping the American spirit alive while the troops are not in motion.

TO BUY MANY.

Good books—well bound and of every theme—will be purchased, following the national campaign of next week. The plan of collecting second-hand volumes for cantonment libraries has been abandoned as impractical.

Campaign officials say that every individual dollar will keep alive the American spirit—provide clean recreation for the American fighting line and make the young American feel that he is just as much a part of his country's social or economic as well as military life.
